## Program Goal & Objectives

The goal of our Transportation Services is to provide affordable, easily attainable, and wheelchair-accessible transportation services to seniors and disabled adults throughout the greater Fallbrook area and beyond for access to basic services, medical care, social opportunities, and connections to the outside world without the barriers of expense and dependence on others.

Obj1: Continue providing free or by-donation transportation to seniors and disabled adults. This includes door-to-door services to help them access basic health and wellness services. We plan to offer at least 4,800 local rides or grocery deliveries during the FRHD fiscal year. Additionally, we want to expand the service to include Sunday rides.

Obj2: Continue to provide transportation services to medical and ancillary care in the greater San Diego and South Riverside County regions (within 55 miles of our office) for seniors and disabled residents in the Fallbrook area. These services would otherwise be cost-prohibitive or impossible with existing public and private transportation options. We plan to utilize volunteer drivers and provide at least 300 round-trip rides out of town (600 ride segments) to health-related appointments during this FRHD fiscal year.

Obj3: Provide at least 250 wheelchair rides to FRHD residents over the fiscal year.

Obj4: Enroll at least 30 more seniors with extremely low income in the Traveler's Aid free rides program. We understand that the \$10 request is only a suggested donation, but it helps these seniors feel more comfortable with the program and hold onto their limited resources.

### **Program Outcomes & Measurables**

During this reporting quarter, the Care Van provided a total of 1,128 rides to seniors and adults with disabilities, which accounts for 24% of the overall goal for the fiscal year. Out of these, we identified that 65 rides were for healthcare-related appointments that were out-of-town, equivalent to 22% of the FRHD fiscal year goal. Additionally, 42 of the rides were wheelchair accessible. In addition, we were able to enroll five low-income seniors in the Travelers Aid program, bringing us to 9 out of 30 of our projected goal of having 30 seniors enrolled this grant year.
