D. AUDIENCIA PÚBLICA

D1. Presentación relacionada con el proceso de Redistribución 2020 por parte de National Demographics Corporation.

El presidente de NDC, Douglas Johnson, proporcionó una visión general en profundidad de cómo se compila la información demográfica.

La consultora de NDC Kay Vinson presentó la historia de la formación de zonas de 2018-19 y mostró los datos demográficos y el mapa que se adoptó en 2019. Se presentó el cronograma de redistribución para 2022 junto con la información demográfica actual; se mostró la población total, así como el tamaño deseado de las zonas. Los borradores de mapas revisados para su consideración son mapas de color Tan y púrpura, se revisaron sus respectivas desviaciones.

D2. Audiencia pública para recibir aportes relacionados con los mapas y límites de zona propuestos y la discusión de la Junta.
 Los miembros del público compartieron su opinión para su consideración e indicaron que el mapa de Tan sirve mejor al público, ya que mantiene unido el interés de la comunidad. Los directores están de acuerdo en que el mapa de Tan puede proporcionar la mejor opción, pero les gustaría brindar a la comunidad una oportunidad adicional para proporcionar aportes.

E. AUDIENCIA PÚBLICA RELATIVA A LA REDISTRITACIÓN

- E1. Informe sobre la Audiencia Pública del 5 de Marzo de 2022 y presentación y actualización de los nuevos Mapas y Límites de Zona propuestos.
Kay Vinson de NDC resumió el mapa y cómo se representan las poblaciones. La Zona 2 mantiene la minoría mayoritaria de hispanos, mientras que la Zona 4 tuvo el mayor crecimiento de la población. Se consideraron dos mapas, el Mapa Tan y el Mapa Púrpura. Se compararon y discutieron los resúmenes demográficos de ambos.
- E2. Audiencia pública para recibir aportes del público sobre los nuevos mapas y límites de zona propuestos.
Los miembros del público proporcionaron información sobre los Mapas y cómo preservan la mayoría de la población hispana en la Zona 2 para ambos mapas. Hubo discusiones sobre las revisiones solicitadas del mapa de Tan que no se adhirieron a las desviaciones requeridas, por lo tanto, solo Tan y Purple eran opciones.
- E3. Discusión de la Junta sobre los nuevos Mapas y Límites de Zona propuestos y Consideración de la Resolución No. 443 en cumplimiento de los Requisitos de Redistribución Decenal.
Acción: Fue movido por el Director Schwartz, secundado por el Director Jeffries para aprobar el Mapa tan para permanecer en cumplimiento con los Requisitos de Redistribución Decenal.
Moción aprobada en la siguiente votación nominal (4-1 en ausencia)

D. DISCUSIÓN/POSIBLES PUNTOS DE ACCIÓN

D1. Desarrollo de Centros comunitarios de salud y bienestar – Joe Lowe, Taylor Design
El Sr. Lowe revisó los pasos que se han tomado para proporcionar la estimación para el desarrollo del Plan del Sitio y propuso mejoras. Taylor Design originalmente proporcionó una estimación de costos de enfoque de arriba hacia abajo, desglosada por tareas del proyecto. Las tareas enumeradas fueron : Desarrollo de Diseño, Documento de Construcción, Agencia, Licitación y Administración de Construcción. Los miembros de la Junta discutieron sobre las prioridades para el distrito en lo que respecta a la creación de un campus acogedor y orientado a la salud. El establecimiento de un presupuesto se discutió como un paso pertinente para establecer expectativas correctas y posteriormente establecer prioridades. El pensamiento predominante era centrar nuestros esfuerzos en un enfoque por fases. La prioridad es la capilla como edificio uno, la sala comunitaria etiquetada como edificio dos y los terrenos.

Acción: Fue movido por el Director Jeffries, secundado por el Director Mroz para Taylor Design para crear la fase de prediseño para los edificios uno, dos y el desarrollo del sitio.

RESOLUTION NO. 445

**RESOLUTION OF THE BOARD OF DIRECTORS OF
FALLBROOK REGIONAL HEALTH DISTRICT RE-RATIFYING
THE STATE OF EMERGENCY AND RE-AUTHORIZING
REMOTE TELECONFERENCE MEETINGS**

WHEREAS, Fallbrook Regional Health District (“District”) is committed to preserving and fostering access and participation in meetings of its Board of Directors; and

WHEREAS, Government Code section 54953(e) makes provisions for remote teleconferencing participation in meetings by members of a legislative body without compliance with the requirements of Government Code section 54953(b)(3), subject to the existence of certain emergency conditions; and

WHEREAS, a required condition is that a state of emergency is declared by the Governor pursuant to Government Code section 8625, proclaiming the existence of conditions of disaster or of extreme peril to the safety of persons and property within the state caused by conditions as described in Government Code section 8558; and

WHEREAS, a proclamation is made when there is an actual incident, threat of disaster, or extreme peril to the safety of persons and property within the jurisdictions that are within the District’s boundaries, caused by natural, technological, or human-caused disasters; and

WHEREAS, it is further required that state or local officials have imposed or recommended measures to promote vaccines, masking, and social distancing, and that meeting in person at the hospital would present imminent risks to the health and safety of attendees; and

WHEREAS, the Board of Directors previously adopted Resolution No. 437 on October 13, 2021, finding that the requisite conditions exist for the Board of Directors of the District to conduct remote teleconference meetings without compliance with paragraph (3) of subdivision (b) of Government Code section 54953; and

WHEREAS, as a condition of extending the use of the provisions found in Government Code section 54953(e), the Board of Directors must reconsider the circumstances of the state of emergency that exists in the District, and the Board of Directors has done so; and

WHEREAS, emergency conditions persist in the District and vaccine compliance, masking, and social distancing measures are required to be followed for the continued health and safety of the staff, Board, and public; and

WHEREAS, as a consequence of the local emergency persisting, the Board of Directors does hereby find that the District shall conduct its meetings without compliance with paragraph (3) of subdivision (b) of Government Code section 54953, as authorized by Government Code section 54953(e), and that such meetings shall comply with the requirements to provide the public with access to the meetings as prescribed in Government Code section 54953(e);

THEREFORE, BE IT RESOLVED by the Fallbrook Regional Health District Board of Directors as follows:

Section 1: Recitals. The Recitals set forth above are true and correct and are incorporated into this Resolution by this reference.

Section 2: Affirmation that a Local Emergency Persists. The Board of Directors hereby considers the conditions of the state of emergency in the District and proclaims that a local emergency persists throughout the District.

Section 3: Re-Ratification of the Governor’s Proclamation of a State of Emergency. The Board hereby ratifies the Governor’s Proclamation of a State of Emergency.

Section 4. Remote Teleconference Meetings. The District’s Chief Executive Officer is hereby authorized and directed to take all actions necessary to carry out the intent and purpose of this resolution, including conducting open and public meetings in accordance with Government Code section 54953(e) and other applicable provisions of the Ralph M. Brown Act.

PASSED AND ADOPTED at a regular meeting of the Board of Directors of Fallbrook Regional Health District held on April 13, 2022, by the following roll call vote:

AYES: Directors _____
NOES: Directors _____
ABSTAIN: Directors _____

Internacional: CRISIS DE UCRANIA

- **Si desea contribuir / donar a organizaciones que actualmente abordan las necesidades de la población Ucraniana, o proporcionar recursos para las familias que requieren ayuda en casos de desastre:**

AYUDA DE LOS ESTADOS UNIDOS: La Agencia de los Estados Unidos para el Desarrollo Internacional (USAID) ha desplegado un Equipo de Respuesta de Asistencia en Casos de Desastre (DART) para responder a las crecientes necesidades humanitarias derivadas de la invasión no provocada e injustificada de Ucrania por parte de Rusia. DART de USAID, que actualmente tiene su sede en Cracovia, Polonia, está trabajando estrechamente con aliados y socios europeos que estarán en la primera línea de la respuesta. El equipo dirigirá la respuesta humanitaria del gobierno de los Estados Unidos para ayudar a abordar las necesidades críticas causadas por la invasión rusa de Ucrania, incluida la respuesta a las necesidades de los desplazados internos. USAID se coordinará estrechamente con el Departamento de Estado, ya que también apoyará a las organizaciones internacionales asociadas que responden a las necesidades de los desplazados internos. El Departamento de Estado liderará la respuesta del Gobierno de los Estados Unidos sobre cualquier situación de refugiados resultante.

Embajada de los Estados Unidos en Ucrania: +380 044 521 5000, Asistencia de emergencia: 044-521-5566 Correo electrónico: kyivacs@state.gov acaba de anunciar: Provisión de casi \$ 54 millones en asistencia humanitaria a los afectados por la invasión de Rusia. \$ 26 millones del Departamento de Estado y \$ 28 millones de la Agencia de los Estados Unidos para el Desarrollo Internacional. La asistencia humanitaria más reciente fluirá a través de organizaciones humanitarias independientes que brindan asistencia basada en las necesidades (incluida la atención médica de emergencia). Nacional

- **Determinación de salud pública de los CDC y terminación de la orden del Título 42 : Viernes, Abril de 2022**

El Director de los CDC está emitiendo una Determinación de Salud Pública y terminando [una Orden](#) bajo 42 U.S.C. §§ 265, 268 y 42 C.F.R. § 71.40 (es decir, "Título 42"), suspendiendo el derecho a introducir migrantes en los Estados Unidos. En consulta con el Departamento de Seguridad Nacional (DHS), esta terminación se implementará el 23 de mayo de 2022, para permitir que el DHS tenga tiempo para implementar protocolos apropiados de mitigación de COVID-19, como ampliar un programa para proporcionar vacunas COVID-19 a los migrantes y prepararse para la reanudación de la migración regular bajo el Título 8. Después de considerar las condiciones actuales de salud pública y una mayor disponibilidad de herramientas para combatir el COVID-19 (como vacunas y terapias altamente efectivas), el Director de los CDC ha determinado que ya no es necesaria una Orden que suspenda el derecho a introducir migrantes en los Estados Unidos. Con la asistencia y orientación de los CDC, el DHS ha implementado y implementará procedimientos adicionales de mitigación de COVID-19. Estas medidas, junto con el panorama actual de salud pública donde el 97.1% de la población de los Estados Unidos vive en un condado identificado como con un nivel comunitario "bajo" de COVID-19, mitigarán suficientemente el riesgo de COVID-19 para las comunidades de los Estados Unidos. Nuevos datos de los CDC iluminan las amenazas a la salud mental de los jóvenes durante la pandemia de COVID-19. La primera encuesta representativa a nivel nacional de los CDC de estudiantes de secundaria durante la pandemia puede informar programas efectivos "Estos datos hacen eco de un grito de ayuda", dijo la subdirectora interina de los CDC, Debra Houry, M.D., M.P.H. "La pandemia de COVID-19 ha creado factores estresantes traumáticos que tienen el potencial de erosionar aún más el bienestar mental de los estudiantes. Nuestra investigación muestra que rodear a los jóvenes con el apoyo adecuado puede revertir estas tendencias y ayudar a nuestros jóvenes ahora y en el futuro <https://www.cdc.gov/media/releases/2022/p0331-youth-mental-health-covid-19.html>".

Actualizaciones del Condado de San Diego y Live Well

- **El Condado está modificando sus esfuerzos de pruebas y vacunación de COVID-19** para llegar mejor a los habitantes de San Diego que tienen dificultades para acceder a estos servicios. El enfoque incluirá proporcionar sus recursos en centros de salud pública y a través de servicios móviles, incluidos dos autobuses Live Well on Wheels y un bookmobile, que ha sido reutilizado como una clínica móvil de vacunas. Este cambio se produce cuando la mayoría de las vacunas y pruebas de COVID en la región ahora se administran a través de farmacias, consultorios médicos y hospitales. Alrededor del 10% de las vacunas y refuerzos contra el COVID-19 se administran a

través del condado. <https://www.countynewscenter.com/county-modifies-vaccine-and-testing-efforts-to-vulnerable-populations/>

INFORME DE LA DIRECTORA EJECUTIVA - ABRIL

Actualizaciones de COVID-19:

- Continuamos ofreciendo pruebas COVID - PCR los jueves por la mañana en el Centro Comunitario de Salud y Bienestar.
- Estamos alentando activamente a las personas a conectarse con las farmacias locales para obtener sus refuerzos, especialmente ahora que el segundo refuerzo (4ª inyección) está disponible para los mayores de 50 años o con problemas de salud.

Centro Comunitario de Salud y Bienestar:

- Taylor Design ha recibido la copia enmendada de Jeff Scott de su propuesta de contrato. Estoy esperando una actualización de Joe Lowe y traeré cualquier cambio a la reunión de 4.13.

Contratos-Subvenciones de Salud Comunitaria:

- Gracias a todos por asistir a la capacitación de Confiabilidad de Inter-rater que realizamos el 22 de Marzo. Con suerte, cada uno de los miembros de la Junta está en el proceso de revisión de la solicitud de subvención. Como recordatorio, por favor tenga cualquier pregunta para los solicitantes para mí lo más rápido posible, o antes del 15 de Abril a más tardar.
- Celebraremos una Reunión Especial de la Junta para la calificación y concesión de las subvenciones el sábado 23 de Abril a las 10:00 a.m. Esta reunión híbrida se llevará a cabo en el Centro Comunitario de Salud y Bienestar.

Finanzas y Auditoría:

- Presenté el primer borrador del próximo presupuesto del FY22.23 a Finanzas el 6 de abril. Planeo presentarlo nuevamente durante nuestras reuniones de mayo, con la expectativa de que podría ser aprobado en la reunión de la Junta de junio.

Personal y Operaciones:

- Todavía estamos pendientes de una fecha de inicio para las reparaciones de inundaciones en la propiedad de Brandon. Judith es la persona clave entre American Response (el proveedor de remediación y restauración) y nuestro ajustador de seguros. Este es un proceso bastante estandarizado, y no esperamos ningún desafío para el proceso.
- Ron Homes nuevamente nos está ayudando con el apoyo de consultoría para la renovación del estacionamiento de la propiedad Brandon. La fecha de inicio está siendo delimitada.
- Los nuevos letreros para el edificio Brandon fueron aprobados por el grupo fallbrook Planning, estamos trabajando con Jim's Sign Shop para instalarlos.

RE: **Proceso y Opciones de Vacantes de Miembros de la Junta**

La Directora Schwartz-Frates ha presentado su renuncia como directora a partir del 14 de Abril de 2022.

La sección 1780 del Código de Gobierno proporciona el método para llenar una vacante de la Junta de miembros del Distrito de Salud. La Junta de Distrito tendrá hasta 60 días (hasta el Lunes 13 de Junio) para nombrar o convocar una elección para llenar el puesto vacante.

De acuerdo con el Código de Salud y Seguridad §32100.1, se requerirá que una nueva persona designada sea residente del área de la Zona 3 del Director Schwartz. Si la Junta de Distrito decide no llenar la vacante o no convoca a una elección dentro de los 60 días, la Junta de Supervisores del Condado de San Diego tiene la autoridad para llenar la vacante dentro de los siguientes 30 días (hasta el 13 de Julio de 2022) u ordenar al Distrito que convoque una elección para llenar la vacante. Debido a que la elección de noviembre de 2022 será 117 días después del 13 de julio de 2022, es probable que la Junta no designe a un Director y permita que la oficina sea parte de las elecciones de noviembre. Si la Junta de Distrito o la Junta de Supervisores del Condado nombra a una persona para llenar la vacante, el miembro de la Junta recién nombrado servirá hasta la elección de noviembre de 2022.

Si la Junta decide llenar la vacante, el Código de Gobierno requiere que el Distrito publique un Aviso de Vacante (copia de muestra adjunta) en tres lugares visibles dentro del Distrito durante al menos 15 días antes de la reunión en la que se entrevistará a los solicitantes. El Distrito también puede querer publicar el aviso en el sitio web del Distrito y anunciar el aviso en un periódico local. El personal puede coordinar con el Presidente de la Junta, programando una fecha y hora convenientes para una reunión especial. El proceso de entrevista y votación de la Junta se realizará en sesión abierta en esa reunión especial.

Consideración de la propuesta de Taylor Design para el desarrollo de Centro Comunitario de Salud y Bienestar

Fallbrook Regional Health District

**PROFESSIONAL SERVICES AGREEMENT
TO PROVIDE PRE-DESIGN AND SCHEMATIC DESIGN
ARCHITECTURAL SERVICES FOR THE
FALLBROOK HEALTH & WELLNESS CENTER
FALLBROOK, CALIFORNIA**

Rachel Mason
Chief Executive Officer

138 S. Brandon Road
Fallbrook, California 92028

PROFESSIONAL SERVICES AGREEMENT
TO PROVIDE PRE-DESIGN AND SCHEMATIC DESIGN
ARCHITECTURAL SERVICES FOR THE
FALLBROOK HEALTH & WELLNESS CENTER
FALLBROOK, CALIFORNIA

This Professional Services Agreement to Provide Pre-Design and Schematic Design Architectural Services for the Fallbrook Health & Wellness Center (“Agreement”), located at 1636 E. Mission Road, Fallbrook, California, is made and entered into by and between the Fallbrook Regional Health District (“District”), a Healthcare District organized and operating pursuant California Health and Safety Code Sections 32000 et seq., having its principal office at 138 S. Brandon Road Fallbrook, California 92028, and Taylor & Associates Architects, Inc. dba Taylor Design (“Architect”), a California corporation, with its corporate offices at 17850 Fitch, Irvine, California 92614.

R-E-C-I-T-A-L-S

A. District requires the professional services of a licensed architect to provide District with the professional services described in the Proposed Services section of the attached Exhibit “1” Taylor Design proposal revised March 14, 2022, and as more specifically set forth in Exhibit “1” (“Services”).

B. Architect is a professional architectural firm lawfully authorized to provide architectural services in the State of California, has the knowledge, skill, expertise, experience, and other resources necessary to perform the Services required by this Agreement, and is fully acquainted with the Proposed Services required for the Project.

C. District now desires to retain Architect to provide such Services and Architect desires to provide District with such Services, in accordance with the terms and conditions of this Agreement.

C-O-V-E-N-A-N-T-S

1. Definitions and Usage The following terms and phrases shall have the following meanings for purposes of this Agreement:

(a) “Additional Services” means those additional professional architectural services for the Project which are not described as a part of the Services and which are requested by District in writing.

(b) Architect’s “Standard of Care” means that the Architect shall perform the Services in a diligent, skillful, competent and thorough manner, in accordance with the standards with that degree of skill and care ordinarily exercised by practicing and licensed architectural and engineering professionals performing services of a scope, purpose, magnitude, and location comparable with the Services to be provided under this Agreement.

(c) “Day” means calendar day, unless otherwise indicated. The phrase "business day" or “working day” refers to Monday through Friday, except for national holidays.

(d) “Deliverables” means the documents, instruments, pictures, drawings, graphs, studies, reports, schematics, data, computations, programs, or other writings in any format Architect is required to provide District under this Agreement.

(e) “District Designated Representative” means the District’s Chief Executive Officer (“CEO”). The District Designated Representative, by direction of the District, shall have full authority to act for the District for all purposes under this Agreement.

(f) “Services” means the professional services that Architect will perform as described in the Proposed Services attached to this Agreement as Exhibit “1” and incorporated herein by this reference.

(g) “Subconsultant” means any person or entity directly or indirectly hired or engaged by the Architect to provide any part of the Services. Subconsultant includes all sub-Subconsultants of every tier.

(h) The following language and format conventions apply to this Agreement: Captions and headings are used solely for reference purposes and shall not be deemed or used to construe, interpret, limit, or extend the meaning or scope of any word, clause, paragraph, or provision of this Agreement; the term “include,” in all its forms, means “include, without limitation” unless stated otherwise; the use of one gender shall imply the other gender unless the context clearly indicates otherwise; use of the singular includes the plural and vice versa, unless the context clearly indicates otherwise.

2. ARCHITECT’S SERVICES AND SCHEDULE

2.1 Services. Architect shall provide all labor, materials, tools, equipment, services, and incidental and customary work necessary to fully and adequately provide District with the Services in accordance with the terms and conditions of this Agreement and more specifically described in the attached Exhibit “1” Taylor Design proposal revised March 14, 2022. All Services shall be subject to the acceptance and approval of District and performed by or under the responsible control of an architect licensed by the California Architects Board (“CAB”). From time to time during the progress of the Services, Architect and District shall agree upon reasonable submittal dates for Deliverables which are calculated to maintain the reasonable progression of the Services.

2.2 Key Personnel. In executing this Agreement, District has relied on the knowledge, skill, expertise, experience of Architect's principal architect in charge, Joseph Lowe, who shall not be replaced without the prior written consent of the District, which consent shall not be unreasonably withheld. The Principal Architect In Charge, shall:

- (a) Maintain oversight of the Services at all times;
- (b) Have full authority to represent and act on behalf of Architect for all purposes under this Agreement;
- (c) Supervise and direct the Services in accordance with his and Architect's standard of skill, competence, and care;
- (d) Be responsible for the means, methods, techniques, sequences, and procedures used for the Architectural Services;
- (e) Adequately coordinate all aspects of the Services; and,
- (f) Act as the principal contact with District regarding the the Project.

2.3 Adequate Staffing, Good Order. Upon receiving a fully executed copy of this Agreement, Architect shall assign, procure, and maintain the availability of an adequate staff of competent personnel as necessary and appropriate for the skillful, competent, and diligent performance of the Services during the term of this Agreement.

2.4 Nondiscrimination. In performing under this Agreement, Architect will not discriminate against any worker, employee, applicant for employment, or any member of the public, because of race, religion, national origin, ancestry, sex, age, sexual orientation, disability, marital status, domestic partner status, or medical condition, or otherwise commit an unfair labor practice. All subcontracts entered into by Architect, and subcontracts of every tier, shall contain a like nondiscrimination clause.

2.5 Record Retention. Architect shall maintain and retain copies of Project submittals and Project accounting records, in accordance with recognized commercial accounting practices, for a period of not less than three (3) calendar years after termination of the Agreement. District may audit, at its expense, such records at Architect's office upon reasonable notice during normal business hours. The provisions of this Paragraph 2.5 shall survive any termination of this Agreement.

2.6 Compliance with Laws. In performing the Services, Architect shall use reasonable efforts to comply, and reasonably require its Subconsultants to comply, with applicable laws, rules, regulations, codes, ordinances, and orders of every kind whatsoever issued, adopted, or enacted by any federal, state, or local governmental body having jurisdiction over the Project in accordance with standard of care.

2.7 Meetings. Architect shall attend meetings with District, governmental agencies having jurisdiction, including San Diego County and others, as necessary to perform the Services and as reasonably requested by District. A reasonable time prior to each meeting, Architect shall transmit copies of the agenda and, as appropriate, such data, documents, and/or other information within its control to be discussed at the meeting.

2.8 Correction of Professional Services. This Agreement does not require Architect to perform the Services perfectly or that the Services be free from errors or omissions. However, the Agreement does require Architect to perform the Services in accordance with Architect's professional Standard of Care as set forth in Paragraph 1(b) of this Agreement. Without in any way affecting Architect's professional Standard of Care, Architect agrees, at its expense, to correct deficiencies in the Services identified by Architect and District. Any District review, approval, acceptance or payment for any of the Services does not relieve the Architect of its obligation to perform the Services in accordance with the terms and conditions of this Agreement. The provisions of this Paragraph 2.8 shall survive any termination of this Agreement.

2.9 Subconsultant Performance. Architect remains responsible for the professional and technical accuracy of all Services furnished and for the performance of the Services required by this Agreement, whether the Services are performed by Architect or by its Subconsultants.

2.10 Disqualification, Debarment. Architect represents that neither it nor any of its Subconsultants are disqualified by District or debarred by any other governmental agency from performing the Services under the Agreement.

3. DISTRICT REVIEW COMMITTEE.

District may designate a Review Committee to review the Services performed by Architect for accuracy and completeness, deviations from the requirements of this Agreement, and alleged errors and/or omissions.

4. ADDITIONAL SERVICES

Architect shall not perform, and District will not pay compensation for, Additional Services without the prior written authorization of District.

5. AMENDMENTS TO THIS AGREEMENT.

This Agreement may only be amended by such terms and conditions as are agreed upon by the parties in a written document executed by both parties.

6. TERM OF AGREEMENT.

6.1 Duration. The term of this Agreement begins upon the full execution of the Agreement and, subject to the provisions in Paragraph 13 of this Agreement, expires upon the completion of the Services.

6.2 Termination for Convenience by District. District may at any time, in the exercise of its sole discretion, terminate this Agreement in whole or in part, with or without cause, by providing notice to Architect of its intention to terminate the Agreement for convenience at least thirty (30) days before the effective date of termination. So long as the Architect is not in default under this Agreement at the time of

such termination, District shall make an equitable adjustment to the compensation due Architect taking into account the following:

(a) All compensation and Reimbursable Expenses due to Architect for Services and any Additional Services performed up to the effective date of termination.

(b) Architect's actual and reasonable costs of termination including the actual and reasonable costs of termination settlements paid to Subconsultants and properly chargeable to the terminated portion of the Agreement.

(c) The amount of any advance payments made by District to Architect.

(d) Any amounts owing by Architect to District under the terms of this Agreement, including any amounts that may be withheld by District pursuant to Paragraph 8.5.

(e) No amount shall be payable by District for Services for Architect's anticipated profit on the value of the Services or any authorized Additional Services not performed by the Architect, or for any loss, cost, damage, or consequential damages which Architect or any other party may sustain by reason of or in connection with District's termination of this Agreement.

Architect hereby expressly waives any and all claims for damages and compensation arising under this Paragraph 6.2, except as set forth herein, in the event of such termination. District's right to terminate this Agreement for cause is described in Paragraph 14 of this Agreement. Architect shall include comparable provisions giving effect to this Paragraph 6.2 in its contracts with its Subconsultants, if any.

6.3 Suspension by District. District may at any time, in its sole discretion, with or without cause, suspend the performance of Architect hereunder with respect to all or any part of the Services, upon notice to Architect at least ten (10) days before the effective date of suspension. During the 10-day notice period, Architect must wind down its Services and diligently act to minimize any additional costs chargeable to District. So long as Architect is not in default under this Agreement at the time of suspension, District will pay Architect, in accordance with the terms of this Agreement, all compensation and Reimbursable Expenses due for the performance of Services and any Additional Services prior to the effective date of suspension, together with Architect's actual and reasonable costs of demobilization. By written notice, District shall either resume or terminate the suspended portion of the Services within ninety (90) days of the effective date of the suspension. If Architect is required to resume the suspended Services, Architect may invoice District for its reasonable costs of remobilization. In the event District elects to terminate the suspended portion of the Services and Architect is not then in default of this Agreement, Architect shall be compensated in the manner provided in Paragraph 6.2 above, and Architect hereby expressly waives any and all claims for damages and compensation arising under this Paragraph 6.3, except as set forth herein. Architect shall include comparable provisions giving effect to this subparagraph in its contracts with Subconsultants.

6.4 Continuing Responsibility. Termination or suspension of this Agreement, in whole or in part, as provided in Paragraphs 6.2, 6.3, or 6.5 or in any other manner provided under this Agreement, does not relieve Architect from liability for its performance of any obligation or Services under this Agreement that was performed or was to have been performed by Architect on or before the effective date of such termination or suspension. In no event will District be liable to Architect in any amount for Services or any Additional Services not performed by Architect, for the Architect's anticipated profit on the value of the Services or any authorized Additional Services not performed by the Architect, or for any loss, cost, or damage, including consequential damages which Architect, its subcontractor, or any other party may sustain by reason of or in connection with District's termination or suspension of this Agreement.

6.5 Termination or Suspension by Architect. If District fails to make undisputed payments to Architect in accordance with this Agreement for more than forty-five (45) days after the same are due, such failure shall be considered substantial nonperformance and cause for termination of the Agreement or, at Architect's option, cause for suspension of performance of Services and any Additional Services under this Agreement. The withholding of payments by District in accordance with Paragraph 7.5 of this Agreement shall not be cause for Architect to terminate or suspend the Services. Architect shall give fourteen (14) days' written notice to District prior to any suspension or termination, describing the basis for such action, specifying the undisputed amounts due, and a statement that if such payment is not made within the notice period, Architect may terminate or suspend performance under the Agreement. In the event Architect elects to terminate the Agreement, District shall compensate Architect in the same manner provided in Paragraph 6.2. Architect hereby expressly waives any and all claims for damages and compensation arising under this Paragraph 6.5, except as set forth herein, in the event of such termination or suspension.

7. COMPENSATION AND REIMBURSABLE EXPENSES

7.1 Compensation. For Architect's satisfactory performance of the components of the Services of Pre-Design and Schematic Design including structural mechanical, electrical, and plumbing, civil and landscape architecture design, and processing the Project through public agencies for permits and approvals, local jurisdictions, District shall compensate Architect in accordance with the fixed fee set forth in the Fees section of the attached Exhibit "1," provided, however, that the aggregate amount of such compensation including reimbursable expenses shall not exceed the sum of One Hundred Seventy-Nine Thousand Six Hundred Ninety Dollars (\$179,690) ("Total Compensation") without the prior written consent of District. Architect shall notify District when the compensation due Architect for performance of the Services causes the amount of compensation invoiced to equal seventy-five percent (75%) of the Total Compensation.

7.2 Invoice. Architect shall deliver an invoice to District no later than the 20th day of each month for Services and any authorized Additional Services provided and

Reimbursable Expenses incurred for the prior calendar month. The invoice shall correctly specify the percentage, describe the method of calculation of such percentage, and state the amount to be paid for each component of the Services completed during the prior calendar month. The invoice shall also state the amount to be paid and contain a detailed breakdown of Services and Additional Services performed and Reimbursable Expenses incurred by Architect and any Subconsultant, and a breakdown of the type, purpose, date, and amount of Reimbursable Expenses incurred. Invoices shall be fully supported by written documentation. If District reasonably determines that Architect's invoice lacks sufficient information, it shall be returned to Architect within seven (7) days after receipt and accompanied by a written statement setting forth the basis for District's determination.

7.3 Payment. District shall remit payments to Architect within thirty (30) days of its receipt of Architect's invoices. However, in the event District disputes all or any portion of Architect's invoice, it shall timely pay any undisputed amounts invoiced and notify Architect of the reasons any invoiced amounts are disputed. Whenever feasible, District shall notify Architect of any disputed amounts in time to enable the parties to meet to attempt resolve of such dispute prior to the date for payment of the disputed invoice. Otherwise, the parties shall resolve any disputed amounts, in accordance with Paragraph 16 hereof. Any such dispute shall not relieve Architect of its obligation to continue performing the Services and Additional Services in accordance with this Agreement. All payments to Architect shall be made by check or, at the Architect's written request, by wire transfer to an account designated in writing by Architect. Payment to the Architect for the Services, authorized Additional Services, and Reimbursable Expenses shall not be contingent on the construction, completion, or ultimate success of the Project. No payment by District for any of the Services or authorized Additional Services shall in any way be deemed to constitute District's approval or acceptance of such Service or Additional Service and shall not relieve Architect of its obligation to perform the Services and Additional Services in accordance with the terms and conditions of this Agreement.

7.4 Reimbursable Expenses. District shall reimburse Architect for Reimbursable Expenses actually, reasonably, and necessarily incurred in the performance of the Services or any Additional Services, in addition to compensation due Architect under Paragraph 7.1. Reimbursable Expenses shall not in the aggregate exceed the sum of Eight Thousand Five Hundred Sixty Dollars (\$8,560) unless a higher amount shall have first been agreed upon by District and Architect in writing.

7.5 Payments Withheld. No deduction shall be made from the charges set forth on Architect's invoice except for amounts disputed by District in a timely manner as provided in Paragraph 7.3. District shall be entitled to dispute amounts and withhold payment from an invoice and/or final invoice for this purpose, even if such dispute or objection was not made with respect to one or more earlier monthly invoices. Payment to Architect shall not be withheld or made contingent upon receipt by District of offsetting reimbursement or credit from parties not within Architect's reasonable control.

7.6 Compensation for Additional Services. Compensation for authorized Additional Services shall be in addition to the compensation due Architect under Paragraph 7.1.

8. OBLIGATIONS OF DISTRICT

District has the rights and obligations set forth below in addition to those provided elsewhere in this Agreement:

8.1 Site Information.

(a) To the extent reasonably required for Architect to perform the Services, District shall furnish Architect with surveys, assessments, and reports describing the physical characteristics, legal limitations, and utility locations for the site. The surveys and legal information shall include, as applicable and reasonably necessary, boundaries and contours of the site and of adjacent streets, alleys, pavements, property and structures, drainage, rights-of-way, easements, encroachments, deed restrictions and other legal constraints. Also, District shall provide, when reasonably requested by Architect, structural, civil, chemical, mechanical, hazardous materials, environmental, geotechnical investigation and laboratory tests, inspections, or reports and analysis required by law. Alternatively, District may authorize the Architect, at District's expense, to procure such surveys, tests, and reports from Subconsultants of Architect approved in writing by District. If Architect does procure these or any other services at the request of District, Architect shall not be liable for the substantive accuracy of such Subconsultant services, nor shall Architect be vicariously liable therefore.

(b) Architect shall be entitled to rely upon the accuracy and completeness of information provided by District and any of District's consultants; provided, however, Architect shall employ its reasonable standard of professional skill and care in acquiring and using such information and provide prompt notice to District if Architect becomes aware of any errors, omissions or inconsistencies in such information or services.

8.2 District Review of Documents. District reserves the right to examine all documents submitted by Architect, including supplemental service agreements and other matters requiring approval by District and render decisions pertaining to them within a reasonable time.

8.3 Notice of Fault or Defect. District shall provide prompt notice to Architect if District becomes aware of any fault or defect in the Project, including any deficiencies or delinquencies in the Architect's Services.

8.4 California Environmental Quality Act. District shall be responsible for meeting the requirements of the California Environmental Quality Act ("CEQA") for the Project. District may employ the services of a third party, as a District Consultant, to assist District in completing any required environmental documents under CEQA. To the extent District directs Architect to perform any services to enable District to comply with

CEQA for the Project and which services are beyond the scope of this Agreement, Architect shall perform such services as Additional Services.

9. AUDITS.

Architect shall keep, and shall require its Subconsultants to keep, detailed accounts and records upon which billings for Services, Additional Services, and Reimbursable Expenses are based. Such accounts and records shall be kept in accordance with generally accepted accounting practices and retained by the Architect for a period of not less than three (3) years after the expiration of the term or termination of this Agreement. Such records shall be made available to District's Designated Representative at reasonable times and with reasonable notice for the purposes of auditing such accounts and records.

10. OWNERSHIP OF DOCUMENTS.

10.1 Ownership and Use of Documents. All Deliverables, including all designs, drawings, documents, data, computations, studies and reports prepared by Architect or any Subconsultant, as a part of the Services or Additional Services shall remain the property of Architect (collectively, "Instruments of Service"). Subject to Paragraph 11.3 hereof, all copies of Instruments of Service submitted to and retained by District under this Agreement may be utilized by District, and third parties authorized by District, only with respect to the Project, including any Project architectural/engineering design, repair, renovation, modernization, replacement, reconstruction, or expansion of the Project, and not for the construction of any other project. District shall have no obligation to employ Architect in the event such documents are used and reused by District for such purposes. District's right to use the Instruments of Service for the Project shall survive any termination of this Agreement. In the event this Agreement is terminated, in whole or in part as provided herein, District may procure, upon such terms as it determines appropriate, architectural services from another party to complete the Services and any authorized Additional Services for the Project, using the Instruments of Service.

10.2 Architect's Use. Subject to Paragraph 10.3 hereof, and notwithstanding that Instruments of Service shall remain the property of Architect as provided in Paragraph 10.1 hereof, Architect may reuse, or permit third parties to utilize, at its discretion, any and all aspects of the Instruments of Service, provided it shall first obtain the written consent of District. However, Architect reserves the right to re-use its standard details without consent of District. Any use of the Instruments of Service by Architect or third parties authorized by Architect shall remain subject to Architect's obligations set forth in Paragraph 17 of this Agreement.

10.3 District's Use and Architect's Copyright. When Architect has been paid all amounts due under this Agreement for the Services, any authorized Additional

Services, and Reimbursable Expenses, Architect hereby grants to District the right to use, and permit third parties to use, any aspect of the Instruments of Service for any District project. Whenever the District utilizes or permits a third party to utilize any aspect of the Instruments of Service for any non-Project use, Architect shall have no liability or responsibility for such use and District hereby agrees to defend, indemnify and hold Architect harmless from all claims, losses, costs and expenses (including reasonable attorney's fees) Architect may incur or suffer arising out of or in connection with such use. Architect shall not be liable or responsible for any revisions to the documents made by any party other than the Architect, a party for which Architect is legally responsible or liable, or anyone approved by Architect. Notwithstanding the foregoing, Architect shall retain the right to copyright all or any aspect of the Instruments of Service and the right to file a claim against any person whose use of the same is unauthorized either by Architect or by District under the terms of this Agreement. In the event of a termination or suspension of this Agreement, Architect shall provide District with all complete and in process studies, sketches, drawings, works in progress, specifications, computations, and all other documents described in Exhibit "1", Proposed Services, to which District would have been entitled at the completion of Services. Upon District's payment of the amount required to be paid to Architect under the termination provisions of this Agreement, District shall have the rights to use such documents as prescribed in this Paragraph 10.3. In the event of a dispute of the amount due Architect under the termination provisions of this Agreement, Architect shall provide all such documents to District upon District's payment of the undisputed amount. Architect shall have no right or need to keep records or fail to provide District any of such documents pending the resolution of the dispute. However, District shall be obligated to pay Architect its reasonable Reimbursable Expenses for making such documents available to District.

10.4 Submission to Agencies Having Jurisdiction. Nothing in this Agreement shall preclude District or Architect from submitting copies of any aspect of the Instruments of Service to any federal, state, or local agency having jurisdiction over the Project as may be required or requested by such agency, and any such submittal shall not be construed as a violation of this Agreement or the rights of District or Architect.

10.5 Promotional Material. Subject to Paragraph 17, and District's written consent, which shall not be unreasonably withheld, Architect may photograph the exterior and interior of the completed Project and include such photographs and other representations of the Project design in its promotional materials.

10.6 Survival of Provisions. The provisions of Paragraph 10 shall survive any termination of this Agreement.

10.7 Submittal of Final Architect Deliverables. Architect represents that the plans, specifications, designs and other aspects of the Architect Deliverables for the Project will be consistent with the typical practices and performance standards set forth in Paragraph 2.12 of this Agreement. Architect will provide District with the final plans, specifications, designs, and other aspects of the Architect Deliverables.

11. INDEMNIFICATION

11.1 Indemnification by Architect.

(a) To the fullest extent permitted by law, Architect agrees to indemnify, defend, and hold harmless District, its governing body and directors, officers, employees, contractors, representatives, agents, successors, and assigns (collectively, "District Indemnitees") from and against any and all losses, liabilities, claims, demands, causes of action or proceedings in any judicial or administrative forum, judgments, fines and penalties, costs and expenses (including reasonable fees and expenses of attorneys, defense costs, and reasonable expert's fees) of whatever kind or nature, in law or equity ("Indemnity Claims"), that District Indemnitees, or any of them, may suffer or incur, including Indemnity Claims arising by reason of the personal injury of any person or property damage, to the extent the same arise out of or in connection with the negligent acts or omissions, recklessness, or willfull misconduct of Architect, its officers, employees, contractors, Subconsultants of any tier, representatives, agents, successors or assigns on the Project site or in the performance of the Services or any authorized Additional Services under this Agreement.

(b) Architect shall defend, indemnify and hold District Indemnitees harmless from and against any and all claims, demands, causes of action in any judicial or administrative forum, liabilities, losses, judgments, fines and penalties, costs and expenses of whatever nature (including reasonable defense costs, attorneys' fees, and experts' fees and court costs) that District Indemnitees, or any of them, may incur or suffer arising out of or in connection with the infringement of any third party's intellectual property rights, patent, trademark, copyright, license, right of privacy, or any other tangible or intangible personal or property right, or the misappropriation of third party confidential information, by Architect, its officers, employees, contractors, Subconsultants of any tier, vendors, representatives, agents, successors, or assigns in the performance of this Agreement.

11.2 Indemnification by District.

(a) District agrees to indemnify, defend, keep and save harmless Architect, its officers, employees, representatives, agents, successors and assigns (collectively, "Architect Indemnitees") from and against any and all losses, liabilities, claims, demands, causes of action in any judicial or administrative forum, judgments, fines and penalties, costs and expenses (including reasonable fees and expenses of attorneys, defense costs, and reasonable expert's fees) of whatever kind or nature, in law or equity ("Indemnity Claims"), that Architect Indemnitees, or any of them, may suffer or incur, including Indemnity Claims arising by reason of the personal injury of any person or property damage, to the extent the same arise out of or in connection with the negligent acts or omissions, recklessness, or willfull misconduct of District, its officers, employees, contractors, representatives, agents, successors, or assigns on the Project site or in the performance of this Agreement.

(b) District shall defend, indemnify and hold Architect Indemnitees harmless from and against any and all claims, demands, causes of action in any judicial or administrative forum, liabilities, losses, judgments, fines and penalties, costs and expenses of whatever nature (including reasonable defense costs, attorneys' fees, and experts' fees and court costs) that Architect Indemnitees, or any of them, may incur or suffer arising out of or in connection with the infringement of any third party's intellectual property rights, patent, trademark, copyright, license, right of privacy, or any other tangible or intangible personal or property right or the misappropriation of third party confidential information by District, its officers, employees, contractors, vendors, representatives, agents, successors, or assigns during the performance of this Agreement.

11.3 Survival of Provisions. The provisions of Paragraph 12 shall survive any termination of this Agreement.

12. ARCHITECT'S INSURANCE

Architect shall procure and maintain, at its sole cost and expense, and at all times during the performance of the Services, policies of insurance providing coverage in the amounts and types set forth in Exhibit "2" Insurance Requirements, attached hereto and incorporated herein by this reference, insuring against claims for professional liability, injuries to persons and/or damages to property which may arise out of or in connection with Architect's negligent performance of the Services. Architect shall not commence conducting the Services until it has provided District with satisfactory evidence that such policies have been procured and are in effect. The policies of insurance shall be obtained from an insurer admitted in the State of California having a rating of at least A:VII or better as listed in Best's Insurance Guide. Proof of renewal shall be provided to District two weeks before any such policy of insurance expires during the term of the Agreement. Architect's insurance policies shall be primary to any insurance or other coverage available to District, which shall be deemed excess to Architect's policies of insurance and non-contributing. All deductible amounts under Consultant's policies of insurance are payable by Architect and shall be in amounts approved by District. Each insurance policy required hereunder shall provide that coverage shall not be cancelled except on ten (10) days notice of cancellation due to non-payment of premium by mail, return receipt requested, to District. The Comprehensive General Liability and Automobile policies of insurance shall name District as an additional insured. The policies of insurance shall not preclude Architect from waiving the right of subrogation prior to a loss, and Architect hereby waives all rights of subrogation against District. To the extent Architect cannot procure occurrence policies of insurance, it shall procure insurance covering claims made as a result of the performance of this Agreement for not less than three years following the completion of performance of this Agreement. Architect's agreements with Subconsultants shall each contain provisions making such Subconsultant subject to the same insurance requirements as required of Architect under this Paragraph, including the requirement for professional liability insurance coverage, unless other requirements are approved by District in writing. The provisions of this Paragraph 12 shall survive any termination of this Agreement.

13. TERMINATION FOR CAUSE BY DISTRICT

13.1 Events of Default. Each of the following occurrences constitutes an Event of Default by Architect under this Agreement:

(a) Any representation of Architect set forth in this Agreement, or otherwise delivered to District pursuant to this Agreement, which is false in any material respect within the knowledge, information, or belief of the declarant when so made or furnished;

(b) Architect becomes insolvent or ceases doing business as a going concern, or makes an assignment for the benefit of creditors, or generally fails to pay, or admits in writing its inability to pay, its debts as they become due;

(c) Any proceeding is commenced voluntarily by, or involuntarily against, Architect, seeking reorganization, arrangement, readjustment, liquidation, or dissolution of Architect or similar relief under any present or future statute, law or regulation relating to insolvency or bankruptcy, including the United States Bankruptcy Code, which is not vacated, stayed, discharged, bonded or dismissed within sixty (60) days following commencement of the proceeding, or the appointment of, with or without the Architect's consent or acquiescence, any trustee, receiver, liquidator or other custodian of all or any substantial part of Architect's assets and properties, and such appointment will not have been vacated, stayed, discharged, bonded or otherwise dismissed within sixty (60) days of the appointment;

(d) Architect's material failure to perform any of its obligations under this Agreement after notice from District and a reasonable opportunity to correct the failure to perform.

13.2 District's Remedies. Except as provided in Paragraph 18.11, should Architect fail to perform any of its obligations under this Agreement, and fail to cure an Event of Default within the time prescribed in District's notice, the District shall be entitled to exercise any and all rights, powers, and remedies available to it under this Agreement, by law, or in equity. In particular, without in any way waiving or limiting the generality of the foregoing, the District shall have the right to terminate this Agreement upon ten (10) days written notice to Architect. Architect shall have ten (10) days to take corrective action. In the event corrective action has not been taken to the reasonable satisfaction of District, this Agreement shall terminate. In such event, the District shall have no further obligations hereunder or liability to Architect except as to payment for Services actually received and accepted by District through the effective date of termination, subject to set off of any claims of District against Architect for failure to perform the Services. Notwithstanding the foregoing, District agrees that Architect is not responsible for any delay the cause of which is beyond the control of Architect, or its officers, employees, Subconsultants of any tier, agents, and representatives. No courses of dealing on the part of District or delay or failure on the part of District to exercise any right will operate as a waiver of such right or otherwise prejudice District's rights, powers

or remedies. District's decision to terminate this Agreement is not subject to claim or dispute under Paragraph 16; provided, however, that the amounts due Architect under this Agreement for such termination may be subject to a claim or dispute under Paragraph 16 hereof.

13.3 Flow Down to Architect's Subconsultants. Architect shall include comparable provisions giving effect to this paragraph in its contracts with Subconsultants.

14. REMEDIES NOT EXCLUSIVE.

No right or remedy in this Agreement conferred upon or reserved to District is exclusive of any other right or remedy provided or permitted under this Agreement or by law or in equity, but each is cumulative of every other right or remedy given in this Agreement or now or hereafter existing at law or in equity or by statute or otherwise, and may be enforced concurrently or from time to time.

15. CLAIMS AND DISPUTES

15.1 Dispute Resolution Procedure. All claims arising under, related to or in connection with the terms of this Agreement or its interpretation, whether involving law or fact or both, including questions concerning interpretation of this Agreement, allowability of compensation, disputed amounts invoiced, and all claims for alleged breach of contract will first be presented to the District's Designated Representative. All claims and disputes which can not be resolved, by discussion with the District's Designated Representative shall be resolved in accordance with same process set forth in California Public Contract Code Sections 20104-20104.6 which shall include mediation. Whenever such code sections refer to "contractor" it shall mean Architect and whenever such code sections refer to "public agency" it shall mean District.

15.2 Architect Self-Help Prohibited. Architect shall not withhold Services to gain potential leverage in negotiating or settling any claims Architect may have against District. Doing so shall be deemed bad faith on Architect's part. This provision is not intended to prohibit Architect from exercising its professional judgment, however, in carrying out its duties and responsibilities under this Agreement.

16. ASSIGNMENT

Architect acknowledges that District is induced to enter into this Agreement by the personal qualifications of the principals, staff and employees of Architect, its subcontractors and Subconsultants, and, therefore, that neither this Agreement nor any right or obligation in this Agreement shall be assigned by Architect, in whole or in part, without the prior written approval of District. In the event of an assignment by Architect without the prior written approval of District, District shall have the right to immediately

terminate this Agreement in accordance with Paragraph 6 without fault or responsibility.

17. RELATIONSHIP OF PARTIES

Under this Agreement, the relationship of Architect to District is that of an independent contractor, and Architect will have no right or authority to make contracts or commitments for or on behalf of District, to sign or endorse on behalf of District any instruments of any nature or to enter into any obligation binding upon District. This Agreement will not be construed as an agreement of partnership, joint venture, or agency between District and Architect.

18. GENERAL

18.1 District's and Architect's Authority. Architect and District represent that their execution of this Agreement is authorized by their respective governing body and under applicable law, and that the signatures(s) of each person signing on behalf of Architect and District have been made with complete and full authority to commit Architect and District, respectively, to all terms and conditions of this Agreement, including each and every representation, certification and warranty contained or incorporated by reference in it.

18.2 Entire Agreement. This Agreement constitutes the entire understanding and agreement between the parties to this Agreement and supersedes any and all prior or contemporaneous oral or written representations or communications with respect to the subject matter hereof, all of which communications are merged in this Agreement. This Agreement may only be modified, amended or in any way altered by an instrument in writing signed by both of the parties.

18.3 Governing Law. This Agreement has been negotiated and executed in the State of California and will be construed under and in accordance with the laws of the State of California.

18.4 Venue. Venue for any state legal or equitable action commenced under this Agreement shall lie in the Superior Court for the County of San Diego, North County Judicial District, and for any federal legal or equitable action in the Federal District Court for the Southern District of California.

18.5 No Waiver. The waiver by either party of any breach of this Agreement will not constitute a waiver as to any succeeding breach. None of the provisions of this Agreement shall be considered waived by either party, unless such waiver is expressly made in writing. No waiver of any right pursuant to this Agreement or waiver of any breach hereof shall be effective unless in writing and signed by the party waiving such right or breach.

18.6 Notices. All notices required to be given under this Agreement must be given in writing and shall be hand delivered or mailed in the United States certified or registered mail, postage prepaid, return receipt requested, addressed to the parties as follows:

To District:

Fallbrook Regional Health District
Attn: Rachel Mason, Chief Executive Officer
138 S. Brandon Road
Fallbrook, California 92028

To Architect:

Taylor Design
Attn: Joseph Lowe, AIA, LEED, AP, DBIA (#C30454)
17850 Fitch
Irvine, California 92614

If notice is given as provided in this Agreement, such notice is deemed to have been given on the date of delivery, if delivered by hand, and on the second business day after mailing, if given by mail. District or Architect may, from time to time, change the address to which notices will be sent by giving notice to the other party in the manner provided in this subparagraph.

18.8 Severability. If any provision of this Agreement is held to be invalid or unenforceable by a court of competent jurisdiction, such provision will be severed from this Agreement and such invalidity or unenforceability will not affect any other provision of this Agreement, the balance of which will remain in full force and effect; provided, however, that if such provision is deemed invalid or unenforceable as a matter of law, such provision will be deemed to have been modified so as to be valid and enforceable to the maximum extent permitted by law.

18.9 Successors and Assigns. Subject to the provisions of this Agreement affecting assignment, this Agreement is binding upon and inures to the benefit of each of the parties to this Agreement and their respective successors and assigns.

18.10 Non-Appropriation of Funds. If funds have not been appropriated in full or in part, District has the right to terminate this Agreement. District will not authorize Architect to provide Services under this Agreement unless sufficient funds are appropriated to pay for the services.

18.11 Consequential Damages. In no event shall either party, its officers, officials, employees, contractors, Subconsultants of any tier, vendors, or representatives be liable in contract, tort, strict liability, warranty, or otherwise, for any special, indirect, incidental, or consequential damages arising out of or in connection with the parties' performance of this Agreement, including either party's termination of this Agreement.

18.12 Third Party Claims. Nothing contained in this Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either the District or Architect.

18.13 Construction of Agreement, Order of Precedence. The provisions of the Agreement shall not be construed in favor of or against either party but shall be construed as if both parties prepared this Agreement. Unless expressly stated otherwise in this Agreement, any inconsistency between or among the documents comprising this Agreement shall be resolved by giving precedence in the following order: (a) this Agreement, (b) the Exhibit "1" Taylor Design proposal revised March 14, 2022.

Re: Fallbrook Health & Wellness Center: Pre-Design and Schematic Design Phases Only
1636 E. Mission Road
Fallbrook, CA 92028
Taylor Design Project Number: 5460.100

Dear Rachel:

Thank you for the opportunity to submit this proposal for Architectural Design, Engineering and Strategy Design services in support of the Fallbrook Health & Wellness Center project in Fallbrook, CA.

PROJECT DESCRIPTION

This proposal is based on conversations and site visits with the Fallbrook Regional Health District (FRHCD). The project area includes the renovation of four (4) existing buildings and redesign of the existing parcel to include a new outdoor event space, overflow parking, meditation garden, children's play area, walking and exercise trails, new covered walkway to connect Buildings 1 and 2 with Building 3, landscaped areas and two (2) parking lots.

At this time, it is our understanding that we are to proceed with Pre-Design and Schematic Design phases only. This will allow FRHD to obtain a construction cost estimate prior to proceeding with the subsequent design and construction phases. Furthermore, it is understood that the preferred focus is to be on Buildings 1 and 2 and the project site design, and that Buildings 4 and 5 are "on-hold" until further notice. See attached Exhibit A delineating the Project Area of Work.

PROPOSED SERVICES

PRE-DESIGN PHASE

1. Conduct kickoff meeting with the Owner and selected User Group to discuss project objectives, stakeholder values, project team expectations, review project schedule, discuss deliverables, clarify field research, and coordinate engineer site investigations (1 meeting).
2. Obtain and review any expected growth projection information from the Owner for the areas of work.
3. Obtain and review copies of geotechnical, civil, landscape, structural, mechanical, plumbing, fire protection, electrical, low-voltage, fire alarm, kitchen, materials management, façade maintenance, hazardous materials, and architectural record drawings for the areas of work from the Owner in CAD or PDF format. If architectural record drawings are not available from the Owner, perform preliminary field survey to take rough measurements (length x width) and photographs of each room within Project Area of Work (1 site visit). The purpose of these rough measurements will be to calculate approximate overall square footage of spaces. A detailed building survey is not included and may be necessary in a later design phase to verify existing conditions with a higher degree of accuracy.
4. Conduct Design and Visioning Workshop with the Owner (1 meeting).
5. Perform field research.
6. Perform a site investigation with Engineering Consultants to determine existing infrastructure conditions and obtain general project information.

7. Synthesize research into themes, insights, early opportunity areas, and key ideas to define the project design strategy and experience characteristics.
8. Prepare preliminary space program information summarizing the quantitative and qualitative requirements for the project. Prepare programming questions and recommended changes for discussion with stakeholders
9. Meet with Owner and selected User Group to review design concepts, project narrative, workplace strategy, and preliminary space program information (1 meeting).
10. Revise space program information and develop diagrams for blocking, stacking, and adjacencies.
11. Revise space program, update visualizations, and develop conceptual test-fit plans showing room by room layout based on Owner input.
12. Coordinate with Design Team Engineers and Owner CM for additional input.
13. Revise conceptual test-fit plans based on Owner input.
14. Prepare draft Pre-Design submittal package including space program, blocking/stacking/adjacency diagrams, and conceptual plans.
15. Coordinate to finalize Basis of Design reports with Engineers.
16. Coordinate with Third Party for estimate of probable construction cost.
17. Meet with the Owner and selected User Group to review and approve Pre-Design submittal and discuss preliminary construction costs, schedule, and next steps (1 meeting).

SCHEMATIC DESIGN PHASE

1. Perform additional site visit with Engineers to confirm design consistency with existing conditions (1 site visit).
2. Obtain and review preliminary equipment information from the Owner for the areas of work.
3. Perform a code analysis of the areas of work to provide recommendations based on project specific requirements.
4. Prepare one (1) high-level finish palette option to provide a general sense of the project's proposed "look and feel" rather than selections for every type of necessary material.
5. Develop one (1) floor plan based on concept/test-fit plan.
6. Meet with the Owner and selected User Group to review finish palette and floor plan and confirm approval before further development (1 meeting).
7. Prepare interior design model with one (1) design option.
8. Meet with the Owner and selected User Group to review design (1 meeting).
9. Refine floor plan, finish palette, and design option. Prepare preliminary food service equipment plan.
10. Meet with the Owner and selected User Group to review and signoff on final floor plan, finish palette, and design option. Review preliminary food service equipment plan (1 meeting).
11. Prepare Schematic Design drawings including revised floor plan, ceiling plan, food service equipment plan as well as coordinate with engineers to develop geotechnical, civil, landscape, structural, mechanical, plumbing, fire protection, electrical, low-voltage, fire alarm, kitchen, materials management, and architectural basis of design narratives/sketches.
12. Prepare a preliminary table of contents for specifications.
13. Coordinate with Third Party for estimate of probable construction cost.
14. Meet with the Owner and selected User Group to review and approve Schematic Design set and review construction costs (1 meeting).

CONDITIONS

1. Areas of work included in the scope are only those described herein. Should any subsequent spaces, occupants, or building systems require modification to accommodate the work described, additional scope and fees may need to be added to the Contract.
2. Services required due to significant changes in the project size, quality, complexity, schedule, or method of delivery/bidding may require additional scope and fees be added to the Contract.
3. The total numbers of meetings and/or site visits are only those described herein.
4. The Architect assumes the rendering of professional services continuously throughout the duration of the project. Should the Owner suspend development of the Project for longer than three (3) months and elect to resume progress, Architect and Consultants shall be compensated for reasonable resumption costs.
5. The Architect and Engineers will make a reasonable attempt to verify the above-ceiling conditions which can be observed based on the access points provided by the Owner. If visibility is limited due to ceiling plenum obstructions and/or the location of access points is insufficient for testing, inspections or observations, the Owner will provide additional access points or a safe means of accessing the above-ceiling space for observation. If these provisions are not provided, Owner shall consider these areas existing unforeseen conditions and shall assume their risk.
6. The Owner will provide a building maintenance representative to admit access to all portions of the building required for the work, answer questions on site, and provide any known updates to the systems' record drawings.
7. The Owner will forward the completed drawings sets to the necessary stakeholders (Admin, IT, Materials Management/Housekeeping, Interiors, Infection Control, Safety, Engineering, Environmental Health & Safety, etc.) for input and approval prior to start of the subsequent phase to efficiently incorporate comments. Individual meetings with each department are not included.
8. Owner requested change requests, substitutions, and/or value engineering after completion of the Construction Document phase are not included in this fee proposal.
9. The Architect and Engineers are not responsible for issues related to hazardous materials as defined by the Environmental Protection Agency or any other public authority. Hazardous materials surveys and procedures provided by the Owner for inclusion in the contract documents are not reviewed by the Architect or its Consultants. Similarly, submittals that include Material Safety Data Sheets (MSDS) are also not reviewed by the Architect or its Consultants. The Owner will provide services for testing and mitigation.
10. The Owner will contract directly with a licensed Geotechnical Engineer for soil analysis and detection of hazardous materials and will report its findings to the Design Team for their use. The Civil and Structural Engineers shall have access to coordinate with the Geotechnical Engineer for basis of design parameters associated with site preparation or structural systems.
11. A site topographic survey is included in the consultant scope of services. Sub-surface investigation to identify existing utilities is not included. It is assumed that the utilities necessary are readily available on the project site. The Owner will identify preferred points of connection for utilities, as necessary.
12. The Architect assumes that all accessible items along the path of travel to the project area are currently compliant. Should site investigations, agency interpretation, or the Owner's information be provided which require these items be upgraded with the project, an Amendment to the Contract will be required.
13. Furniture Dealer(s) will be contracted directly with the Owner.
14. It is assumed that Systems Furniture Drawings, if needed, will be provided by the selected furniture dealer.
15. It is assumed that selected Furniture Dealer(s) will coordinate with the Owner directly for all logistics, including but not limited to dates and times for trial delivery, trial pick-up, final order, payment, shipment, and installation.
16. Inventory, assessment, or relocation of existing furniture is included.

17. Coordination of sample chair 'shows' for furniture trials, or organization of furniture showroom visits, are not included.
18. Signage design is limited to room identification signs, regulatory signs, and code required signs based on Owner's provided signage design criteria package.
19. The drawings will be assembled by the Design Team in Revit format.
20. Telecommunication, Fire Alarm, Security, and other low-voltage systems design includes pathways and backboxes only. The Owner will provide equipment specification, design, and installation of all cabling, devices, and equipment.
21. Owner will provide a Commissioning Agent who will provide commissioning in accordance with CalGreen and Title 24.
22. Fire alarm and fire sprinkler design, documentation, agency approval, and installation to be provided by the selected Contractor. Engineering services include design-build performance specifications, peer review of the design-build drawings, and submittal review.
23. Services related to unfavorable entitlement negotiations, appeals, and submission to the City Council or Planning Commission are not included.
24. It is assumed that one (1) bid package will be distributed for the project. Subsequent bid packages will require an Amendment to the Contract.
25. The Contractor will coordinate RFI's, submittals, and shop drawings with trades prior to submission to Architect. More than one resubmittal due to lack of Contractor's preparation will be considered excessive and may require an Amendment to the Contract.
26. The selected Contractor will prepare and distribute construction phase meeting minutes.
27. Contractor requested deviations from the requirements of the approved construction documents will be considered a substitution request.
28. Providing details for the repair of defective construction is not included in this fee proposal.

OPTIONAL SERVICES

The following services are not included for the project but can be provided as an additional service:

1. Additional meetings, site visits, field verification or punch lists exceeding those described herein.
2. Site development work including, soil engineering, arborist, building demolition, and environmental documentation and/or approvals not included in the scope of work.
3. Investigative surveys or detailed drawings of existing structures on the project site to be razed.
4. Geotechnical engineering, soil analyses, hazardous materials investigation, traffic engineering, or sub-surface investigation to identify existing utilities.
5. Consultation with regulatory agencies other than those described herein such as CDPH, CEQA, NEPA, BCDC, SHPO, etc.
6. Creation and use of a multi-disciplinary integrated Building Information Model (BIM) and electronic clash detection services.
7. Development of construction documents using the Owner's proprietary CAD or BIM standards or coordination with the Owner's BIM or CAFM implementation program.
8. Creation of Edge of Slab drawings for the Contractor's use in coordinating with subcontractors.
9. The design of sustainable elements to meet the certification requirements of programs such as LEED, Green Globes, Energy Star, or other rebate programs.
10. Commissioning services.

11. Vibration testing, 3D laser scanning, concrete slab rebar scanning of the existing conditions.
12. Specialty lighting design or design of custom light fixtures.
13. Exterior building signage, site wayfinding, electronic signs, temporary signs, donor elements, and original sign designs.
14. Furniture bidding submittal, review and negotiations.
15. Submittals for Alternate Methods of Compliance with AHJ.
16. Historical studies of the building or site.
17. Accessibility study or upgrades to the building, site or parking beyond the project boundaries.
18. Production of renderings, virtual 3D models, animations, videos, or physical scale models.

CONSULTANTS

The following Consultants have been selected to assist the Architect on the project:

<p>Structural: Aark Engineers 1870 Cordell Court, Suite 202 El Cajon, CA 92020 619.312.6336 Aaron Steele</p>	<p>Mechanical, Electrical & Plumbing: PBS Engineers 2100 E. Route 66, Suite 210 Glendora, CA 91740 626.650.0350 Ramon Camacho</p>

Aark (SE)	0	2,500	2,500
PBS (MEP)	0	26,320	26,320
SUBTOTAL	\$57,450	\$113,680	\$171,130
Estimated Reimbursable Expenses, NTE			8,560
		TOTAL	\$179,690

- B. Reimbursable expenses are charges in addition to the fee for Professional Services and will be billed monthly at cost plus 10% administrative mark-up. Reimbursable expenses include costs for travel (rental car or transportation, mileage, hotel, parking, gas, meals), reproduction and photographic services, large format plotting, delivery and mail services, and the like, as permissible by the Owner's Master Agreement, if provided.
- C. Hourly rates for architectural services are included as Exhibit B.
- D. This proposal remains valid 60 days from issuance.

Thank you for the opportunity to be a part of this project. Please feel free to call should you like to discuss any portion of this proposal. If it is acceptable to you, please issue your standard Professional Services Consulting Agreement for our signature via email to Contracts@WeAreTaylor.com. Should DocuSign be the preferred distribution option, please send directly to: John Gresko, Principal email: jgresko@wearetaylor.com

RE: Proposal for Civil Engineering and Survey Services – Fallbrook Wellness Center

Dear Mr. Legaspi,

Please find enclosed our proposal for civil engineering and survey services to assist Taylor Design (TD) with the proposed project. We have based our scope of work and fixed fee and time-and-materials, not-to-exceed budgets on the information we received via e-mail and our experience on other projects.

Our attached scope of work describes our services in more detail. Please do not hesitate to contact us if you have any questions or if you need additional information.

Sincerely,

Steven Kettler, P.E.
Principal

SCOPE OF WORK
CIVIL ENGINEERING AND SURVEYING SERVICES
FALLBROOK WELLNESS CENTER
(4.8 Acres – Gross)
FALLBROOK, CALIFORNIA

The following scope of work based on information provided by Taylor Design (TD) on October 13, 2021. KLE will assist TD and their consultant team thru the design, permitting, and construction of the project.

In general, our services are proposed to assist TD and their consultant team with the Base Mapping Phase, Schematic Design (SD) Phase, Design Development (DD) Phase, Construction Document (CD) Phase, and Bid and Construction Administration (CA) Phase. KLE will specifically assist with the following:

I. BASE MAPPING SERVICES PRE-DESIGN PHASE

A. Aerial Topographic Survey

Perform aerial control survey setting six (6) aerial targets. Aerial targets will be tied to the boundary survey. Basis of Elevations for this survey will be County of San Diego Vertical Datum. Survey data will be analyzed and transmitted to Photo Geodetic for processing and preparation of aerial topo. Topographic survey will be prepared at a scale of 1" = 20' with one-foot contour intervals. The topographic survey will also include collecting survey data along the perimeter of the site along 12th and 13th streets. Survey will locate existing sewer and storm drain manholes, fire hydrants, above ground water appurtenances, and dry utilities. Includes invert elevations.

FIXED FEE \$ 7,200

B. Partial Boundary Survey

Perform a Partial Boundary Survey of the project site. The survey will locate record and non- record monumentation to determine boundary survey from record data only. The Basis of Bearings for this survey will be the California Coordinate System NAD 83, Zone 6. The survey will include only one lot (APN 108-092-22). The boundary survey will be analyzed, and a survey plat prepared for future use. No monumentation will be set as part of this survey. Includes plotting record easements identified in a title report provided by the client.

FIXED FEE \$ 2,500

- C. Supplemental Topographic Survey
 Perform supplemental topographic survey within the limits of the site as needed to support the design. A maximum of two days of field surveying and office support is included.

This survey is on a time and materials basis.

TIME-AND-MATERIALS \$ 5,000

- D. Existing Utility Research
 Research the County of San Diego and Water District records to obtain as-built information for the site (including private wet utilities and storm drain) improvements, if any. Also includes review of site drawings provided by TD and/or the owner.

FIXED FEE \$ 2,000

- E. Base Plan Preparation
 Utilizing the information from above, prepare a base file including the topographic survey, project's partial/record boundary, easements from the Client provided title report, record utility information obtained from the County of San Diego, the Water District, and TD/owner. The Base Plan will be utilized in the design efforts.

FIXED FEE \$ 2,500

ITEM I FIXED FEE	\$ 14,200
<u>ITEM I TIME-AND-MATERIALS</u>	<u>\$ 5,000</u>
ITEM I TOTAL	\$ 19,200

Deliverables:

1. One existing condition base map/plan and file.

II. SCHEMATIC DESIGN (SD) PHASE

Provide miscellaneous civil engineering design services to assist TD and the consultant team during the Schematic Design (SD) Phase of the project. The scope will include miscellaneous services focused on grading, drainage, and stormwater input. Excluded are services to prepare any calculations, design, or plans.

Included is a budget of 40-hours of labor.

TIME-AND-MATERIALS \$ 7,000

ITEM II FIXED FEE	\$ 0,000
<u>ITEM II TIME-AND-MATERIALS</u>	<u>\$ 7,000</u>
ITEM II TOTAL	\$ 7,000

Deliverables:

1. No deliverables.

III. **DESIGN DEVELOPMENT (DD) PHASE**

Provide civil engineering design services to assist TD and the consultant team with the DD Phase of the project. The scope will include the proposed minor site design improvements and amenities including storm drain improvements and post-construction BMPs. The services included are more specifically described below. Services do not include significant alternative site plan options and/or designs. The services included are more specifically described below:

A. Preliminary Grading, Drainage, Wet Utility, and Post-Construction BMP Plan

Provide services to prepare a preliminary grading, drainage, wet utility, and post-construction design and DD plan set. The civil plan sheets anticipated include:

- Existing Condition Plan Sheet.
- Precise Grading and Private Drainage Plan Sheet(s).
- Private Wet Utility Plan Sheet.
- Drainage Management Area (DMA) Plan Sheet.

Included is a budget of 60-hours of labor.

TIME-AND-MATERIALS \$ 10,000

- B. Preliminary Hydrology Calculations: Prepare Preliminary Hydrology Calculations ONLY to assist with the preliminary grading and drainage design. These calculations will be limited to documenting the existing and proposed drainage basins, as well as the existing and developed peak flows. This information will help confirm the approximate size of the required onsite detention for the increase in the larger storm runoff due to development of the site, if any. Excludes any drainage analysis to existing offsite facilities. Included is a budget of 16-hours of labor.

TIME-AND-MATERIALS \$ 2,400

- C. Preliminary Stormwater Calculations: Prepare a Preliminary Stormwater Quality Management Plan (SWQMP), Calculations ONLY, in accordance with the County of San Diego's current stormwater requirements to support the schematic design. Included are services to coordinate the harvest & use and infiltration requirements with the landscape architect, geotechnical consultant, and TD if the Priority Development Project definition is triggered. Included is a budget of 16-hours of labor.

TIME-AND-MATERIALS \$ 2,400

<p>D. <u>Meetings and Consultant Coordination</u> Attend meetings and coordinate with TD and the design team during the Design Development Phase. Also included is the coordination of the required dry utility and gas design by others. Included is a budget of 12-hours of labor to attend meetings.</p>	
TIME-AND-MATERIALS	\$ 2,100
ITEM III FIXED FEE	\$ 0,000
<u>ITEM III TIME-AND-MATERIALS</u>	<u>\$ 16,900</u>
ITEM III TOTAL	\$ 16,900
<p><u>Deliverables:</u></p> <p>1. One Civil Engineering DD plan sheets with grading, storm drain, wet utilities, surface improvements, and post-construction BMPs.</p>	

<p>IV. CONSTRUCTION DOCUMENT (CD) PHASE</p>	
<p>A. <u>Supplemental Field Survey</u> Provide services to collect supplemental survey as may be needed to support the final engineering design effort, a budget of one (1) day of field survey and office calculations is included.</p>	
TIME-AND-MATERIALS	\$ 2,400
<p>B. <u>Rough Grading Plans (to support the County of San Diego's Grading Permit Process/Application Requirements)</u> KLE proposes to prepare and process one set of Grading Plans to show the precise grading of the onsite private improvements. This plan set would be utilized to obtain the County of San Diego required Grading Permit and can be included in the TD's building department plan set as reference. KLE will prepare the following:</p>	
<p>1. <u>Demolition Plan Sheet</u> Prepare a demolition plan sheet. This plan will identify the civil related items only to be demolished. This plan will also identify existing "civil" improvements to remain</p>	
<p>2. <u>Public Grading Plan Sheets</u> Prepare 1" = 20' scale (24" x 36") Public Grading Plan sheets for the precise grading of the on-grade improvements, the private back bone storm drain facilities, and the post construction BMPs. The grading plan sheets can include the location and elevation of the retaining walls, (for approval and permit to be included in the Building Permit application by others). Structural design of the retaining wall and wall permitting is <u>excluded</u> from this scope as it is assumed these services will be provided by others. Included is one earthwork takeoff.</p>	

3. Erosion Control Plan Sheets

Prepare 1" = 40' scale Erosion Control Plan sheets. The scope of the erosion control will be mechanical devices (i.e., gravel bags) and temporary hydroseeding. Permanent landscape and irrigation are assumed to be prepared by others and included in the building department plan set.

4. County of San Diego Bond Estimate

Prepare one bond estimate associated with the rough grading plan.

5. Encroachment Permit in the City Right-of-Way

Coordinate with the County of San Diego, the Encroachment Right-of-Way Permit for work within the easement and/or right-of-way, if any.

6. Grading Permit Applications

Prepare all necessary documents required for the first County of San Diego Grading Permit submittal.

FIXED FEE \$ 20,000

C. Technical Studies

1. Final Drainage Study

Prepare one Final Drainage Study to include hydraulic calculations and to support the design of the proposed private storm drain facilities. The scope of this study assumes that existing drainage facilities have adequate capacity to support the project. Services exclude all offsite drainage calculations, studies, and improvements.

2. Final Stormwater Quality Management Plan (SWQMP-SDP)

Prepare one Final Stormwater Quality Management Plan (SWQMP) based on the current County of San Diego stormwater manual and template for a Standard Development Project (SDP). Excludes the preparation of one Storm Water Management & Facilities Maintenance Agreement. Refer to the Optional Services section for the scope and cost associated with a Priority Development Project (PDP) stormwater report.

3. Storm Water Pollution Prevention Plan (SWPPP)

It is assumed that the total disturbed area will be more than one (1) acres and that a SWPPP will be required. Therefore, the services include preparing one Notice of Intent (NOI) for the project. Also included is the preparation of one SWPPP for the project as a Qualified WSPPP Developer (QSD). Finally, the services include assisting the Owner with their responsibility to upload the NOI and SWPPP onto the State's SMARTS system.

All fees to be paid to the State of California are not included.

All Qualified SWPPP Practitioner QSP services to implement and maintain the construction BMPs including the preparation of rain event action plans, quarterly reports, and annual reports are excluded.

FIXED FEE \$ 18,000

D. Grading Plan and Technical Report Processing

Process the public grading plan and technical reports with the County of San Diego. It is assumed that the County of San Diego will require their typical three plan check cycle process. Included is a maximum of 100-hours of labor to address County of San Diego plan check comments. Excluded are services to incorporate significant redesign of the project.

TIME-AND-MATERIALS \$15,000

E. Meetings and Consultant Coordination

Meetings and Consultant Coordination noted below is based on an assumed schedule (i.e., assumed 12 months for Grading Permit design and permitting).

1. Meetings

Provide services to attend meetings with TD and the consultant team. Included is a budget of 36-hours of labor (12 meetings maximum at 1 hours/per meeting) to attend meetings.

TIME-AND-MATERIALS \$ 2,100

2. Consultant Coordination

Provide services to coordinate with the various design consultants involved with the production of the construction documents. The services include coordination with the dry utility consultant for their efforts related to the design of the gas, electric, and communication facilities, the landscape architect to coordinate the hardscape and landscape design, the geotechnical consultant, the MEP, and project architect. Included is a budget of 30-hours of labor to attend meetings.

TIME-AND-MATERIALS \$ 5,000

ITEM IV FIXED FEE	\$ 38,000
<u>ITEM IV TIME-AND-MATERIALS</u>	<u>\$ 24,500</u>
ITEM IV TOTAL	\$ 62,500

Deliverables:

1. Copy of the County Grading Plan at each Agency submittal.

2. Copy of the Bond Estimates at each Agency submittal.
3. Copy of the Drainage Study and SWQMP at each Agency submittal.
4. Copy of the EMRA at each Agency submittal.
5. Copy of the SWMDCMA at each Agency submittal.
6. Copy of the SWPPP.

V. BID & CONSTRUCTION ADMINISTRATION (CA) PHASE

KLE will provide the following services relative to the construction of the grading and improvements shown on the civil engineering drawings (i.e., the County Grading Plan).

- A. Bid RFI's
 Provide services during the bid phase to clarify requests for information and to attend a pre-bid conference. Included is a budget of 4-hours of labor.

TIME-AND-MATERIALS \$ 700

- B. Construction Meetings
 Attend construction meetings, as requested. Included is a maximum of 3 meetings at 4 hours per meeting (a total of 13-hours of labor) to attend meetings.

TIME-AND-MATERIALS \$ 2,100

- C. Construction Coordination/Support and Minor Plan Changes
 Provide clarification of the civil drawings, as needed. Also included are services to visit the site, coordinate and implement minor plan changes to the civil engineering drawings (as requested by the Client and Client's contractor), review submittals, and assist with RFIs. Included is a maximum of 40-hours of labor to coordinate plan changes.

Note: Services exclude the preparation and processing of formal construction changes with the County of San Diego and/or the Ramona Water District. If a construction change process is required, KLE will provide a separate scope and fee for this effort.

TIME-AND-MATERIALS \$ 6,600

- D. As-Builts
 Provide services to prepare and process the as-built drawings for the County Grading Plan with the County of San Diego and the Water District. These services are based on redline as-builts being provided by the contractor.

FIXED FEE \$ 5,000

ITEM V FIXED FEE \$ 5,000

ITEM V TIME-AND-MATERIALS \$ 9,400

ITEM V TOTAL **\$ 14,400**

<p><u>Deliverables:</u></p> <ol style="list-style-type: none">1. Copies of the revised drawings.2. Copy of the as built "redlines" for the County Grading Plan as obtained from the contractor and as submitted to the Agencies for processing.3. Copy of the final as-builts for the County Grading Plan.

TOTAL FIXED FEE (FFE)	\$ 57,200
TOTAL TIME-AND-MATERIALS (T&M)	\$ 62,800
TOTAL	\$120,000

VI. REIMBURSABLES

Reimbursable costs associated with computer plotting of submittal drawings, bond copies, delivery services, and other miscellaneous direct costs will be billed on a time and materials basis at cost plus 10-percent.

OPTIONAL SERVICES

- A. Priority Development Project SWQMP Template Report (\$7,500)
Prepare one Final Stormwater Quality Management Plan (SWQMP) based on the current County of San Diego stormwater manual and template for a Priority Development Project (PDP). Includes the preparation of one Storm Water Management & Facilities Maintenance Agreement.

CLARIFICATIONS AND EXCLUSIONS

1. The scope of work was developed based on the preliminary site information provided by Taylor Design.
2. KLE understands that they will receive a hard copy and digital copy (AutoCAD) of the following:
 - Building footprint and project architect's site plan tied to the survey control and CAD base file.
 - Location of all landscaping, minor drainage systems, accessible routes of travel, and decorative flat work design from project architect or the project's Landscape Architect. This includes horizontal control of all sidewalks, special paving bands, benches, brick pavers and miscellaneous ornamental improvements.
 - Location of all building and parking structure wet utility connections and inverts.
3. All standard details for the civil site improvements will be identified with reference to the San Diego County Regional Standard Drawings (SDRSD), Water District Drawings and Specifications, and the Green Book Specifications. KLE will provide details only for items not covered in the SDRSD.
4. Processing of the County grading plan is based upon the Agency's typical (3) plan check review cycle.
5. It is understood that all water, sewer, and storm drain facilities exist within or very near the site area and have enough capacity to service the proposed project and that all the onsite wet utilities will be private.
6. It is understood that a separate demolition permit is not required at this time.
7. It is understood that Taylor Design has a cost estimator or will have a contractor responsible for all cost estimating efforts.
8. The services associated with the County grading plan, including the preparation, and processing of the plans, assume a single-phase construction for the grading and private backbone storm drain facilities.
9. It is understood that all on-site improvements (i.e., sewer, water, and storm drain facilities) will be private except for the fire water main to the proposed fire hydrant.
10. It is assumed that the entire site will be designed as one phase but permitted in one grading plan set.
11. Title reports, processing fees, permit fees, and/or inspection fees are assumed to be provided by the Client.

12. All County of San Diego fees are excluded.
13. The proposed fire lane and truck access is assumed to be provided by Taylor Design.
14. This proposal excludes a Downstream Channel Assessment and Report.
15. Services exclude the following:
 - County entitlement application.
 - Public improvement plans.
 - Civil engineering building department plan sheets.
 - Water and sewer studies.
 - Traffic studies.
 - Traffic Signal Modification Plans.
 - Bike lane design and striping.
 - Structural design and permitting of all retaining walls.
 - Landscape Architectural services.
 - Dry Utility services, plans and permits and associated easement design and processing.
 - Geotechnical Engineering services.
 - Formal boundary survey and final mapping not specifically included in the scope of work.
 - Services exclude 3D modeling.
 - Construction staking services. A proposal for these services can be provided once the final design services are substantially complete.
 - Design of all “offsite” improvements.
 - Preparation of formal on-site and offsite water and sewer studies.
 - Preparation of separate cost estimates (other than the Agency required bond estimates).
 - All QSP services.

EXHIBIT A - PROJECT ASSIGNMENT
FALLBROOK REGIONAL WELLNESS CENTER
 LANDSCAPE ARCHITECTURAL CONSULTING
 Fallbrook, CA

Dated: October 15, 2021

Project Understanding:

The following is a summary of the on-site meeting held on 10/13/21 and is the basis for the scope and fee proposal:

General Notes:

- Most of the trees will remain and should be noted for selective pruning
- The existing landscape and old hedges will be replaced; lawn to be kept to a minimum.
- New plantings will include edible landscape / fruit trees / avocado trees
- Fire hazard is a concern on this project with the Riparian area that surrounds it.
- Reuse or replace existing perimeter chainlink Fencing. Some areas need privacy fencing.
- Fallbrook "theme" (neighbor community)
- Engage the Veteran population

Irrigation System:

- There are no original irrigation plans or as-builts.
- The owner is going to perform an audit of the existing irrigation system.
- There is one water meter for the whole property, (same meter as buildings).

Scope of Service Program Elements:

- Vehicular Entry:
 - Vehicular Entry to be Gated (retain the existing gate)
 - Enhance the existing planting where needed
- Exercise walking path
 - ADA accessible
 - Exercise stations
 - Distance Markers
 - Inspirational art areas along the trail - (I.E. COVID 19 Memorial, Veterans Tribute)
- Lighting / visibility
 - Encourage people to go outside, safe place to walk at night
- Building 1 and 2:
 - Architectural footprints to expand with demonstration kitchen
 - Preserve existing Heritage Landscaping including Hong Kong Orchid Tree
 - Enhance planting design

EXHIBIT A – PROJECT ASSIGNMENT

- Building 3:
 - Demonstration educational garden spaces to teach the community how to implement the concept at home (not a community garden)
 - Preserve existing Heritage Landscaping as much as possible including Crape Myrtle and other trees & shrubs
 - Retain the existing low chainlink fence
 - Add pots & raised planters
 - The plants on the slope between shade structure and Building 3 were planted by the community and they need to remain (especially the tree planted by people in the preschool).
 - Classes / educational

 - Building 4
 - Patio / Dining / Gathering space directly off the building
 - Lower-level Retreat / Escape with seating.
 - House of wellness (real home “feeling”)
 - Design for aging in place / accessible space
 - Create a sense of privacy from the trail including privacy fencing to screen from neighbor
 - “Pretty shrubs”

 - Meditation Garden
 - Lawn or groundcover
 - Quiet / Relaxing / Meditation / privacy from neighbors
 - Relocation of existing windmill to a different location on site

 - Overflow parking lot
 - Alternative paving
 - Number of cars to be determined by Planning Department
 - Multi use space for weddings and events
 - Transition from parking lot with a retaining wall / terrace
 - Remove existing fence between parking lot and overflow space

 - Event Space
 - Existing shade structure to remain
 - Remove basketball hoops and keep concrete
 - Remove childrens’ playset
 - Flexible Community Event Space for private weddings, Quinceneras
 - Create a beautiful backdrop at the end of the basketball court for photos and selfies

 - Children’s play area:
 - New play equipment
 - Address the large grade change that would need to be addressed here.
 - Increase visibility (maybe omit some of the Cypress)
-

EXHIBIT A – PROJECT ASSIGNMENT

Description of Services:

Phase I. – Schematic Design

Task 1 – General Services and Coordination

- a) Consultant shall attend a kickoff meeting with the Client to discuss the goals and objectives for the project.
- b) Consultant shall review Client's existing data, reports, record drawings and studies concerning the project.
- c) Consultant shall conduct one site visit and assess the project's opportunities and challenges.
- d) Consultant shall attend periodic meetings with the Client to coordinate the project. (A total of four meetings are budgeted for this project.)

Task 2- Site Master Plan

- a) Consultant shall prepare a site master plan that shall serve as the guideline for construction documents. It shall be based on the Client goals and objectives in combination with the proposed programming and the results of the site opportunities and constraints assessment. It shall include the site design of the elements listed in the Project Understanding.
- b) Consultant shall coordinate design with Client (Taylor Design) and owner.
- c) Consultant shall coordinate grading design and storm water treatment with project civil engineer.
- d) Consultant shall coordinate lighting design with electrical engineer.

Task 3 - Design Development

- a) Consultant shall prepare site design development documents based on the schematic design. Design development documents shall serve as the guideline for construction documents. They shall include further refinement of the schematic plans and additional information regarding landscape construction items, planting design, and irrigation methods.
- b) Consultant shall coordinate design with Client (Taylor Design) and owner.
- c) Consultant shall coordinate grading design and storm water treatment with project civil engineer.
- d) Consultant shall coordinate lighting design with electrical engineer.

Task 4 –Computer Modeling

- a) Consultant shall prepare a computer model of the proposed site plan and prepare at least ten still frame views of the proposed design. Consultant shall also prepare one animation of the completed 3D model. (Note: Architect shall provide 3D building models to Consultant.) Consultant shall make one round of revisions to the model based on Client comments.

Phase II. - Construction Documents

Task 5 – Site Demolition Plan

- a) Consultant shall prepare a site demolition plan that identifies items to be removed and disposed of or removed and salvaged.

Task 6 – Site Construction Plans

- b) Consultant shall prepare landscape construction plans at a scale suitable to communicate design intent that identifies proposed construction elements listed in the Project Understanding.

EXHIBIT A – PROJECT ASSIGNMENT

- c) Consultant shall prepare applicable landscape construction notes, details and specifications.
- e) Consultant shall coordinate design with Client (Taylor Design) and owner.
- f) Consultant shall coordinate grading design and storm water treatment with project civil engineer.
- g) Consultant shall coordinate lighting design with electrical engineer.
- d) Consultant shall revise plans and respond to comments from the permitting municipality as required for plan check and final permitting for areas concerning landscape architecture.

Task 7 –Planting Plans

- a) Consultant shall prepare planting plans at a scale suitable to communicate design intent that identifies proposed trees, shrubs, groundcovers, and mulch. Plans shall conform to the State of California Model Water Efficient Landscape Ordinance or locally adopted ordinance.
- b) Consultant shall prepare a landscape planting legend (schedule) including plant genus, species, common name, quantity, size, water use, and remarks.
- c) Consultant shall prepare applicable planting notes, details and specifications.
- d) Consultant shall revise plans and respond to comments from the permitting municipality as required for plan check and final permitting for areas concerning landscape architecture.

Task 8 –Irrigation Plans

- a) Consultant shall prepare irrigation plans at a scale suitable to communicate design intent that identifies proposed irrigation equipment. Plans shall conform to the State of California Model Water Efficient Landscape Ordinance or locally adopted ordinance.
- b) Consultant shall prepare an irrigation legend including manufacturer and model numbers of proposed equipment.
- c) Consultant shall prepare applicable irrigation notes, details and specifications.
- d) Consultant shall prepare irrigation Water Use Calculations.
- e) Consultant shall revise plans and respond to comments from the permitting municipality as required for plan check and final permitting for areas concerning landscape architecture.

Phase III. - Construction Support

Task 9 – Construction Support

- a) Consultant shall respond to requests for information and prepare addendums and clarifications for landscape related work.
- b) Consultant shall review landscape related submittals and shop drawings.
- c) Consultant shall provide field observation for the landscape related work at the appropriate stages of construction (two site visits are budgeted).
- d) Consultant shall review completed project and prepare a punch list of outstanding items related to landscape (one site visit)
- e) Consultant shall review the completed punch list items and provide a letter of substantial completion (one site visit).
- f) Consultant shall provide record drawings based on general contractors redlines.

Although the Consultant may observe and discuss potential problems with the Client/ Owner or the Client/ Owner's contractor(s), the site visits are not construction inspections or a guarantee that there will not be construction deficiencies. Contractor submittals, such as shop drawings and samples are reviewed by the Consultant only to determine if they conform to the Consultant's design intent. Consultant's review of submittals shall not constitute approval of safety

EXHIBIT A – PROJECT ASSIGNMENT

precautions or construction means, methods, techniques, sequences or procedures. Consultant’s review of Contractor’s payment applications to determine if the amount of work represented as complete is generally consistent with the Consultant’s observations during its site visits shall be subject to any noted qualifications by the Consultant. Client understands that the frequency of the Consultant’s site visits may limit Consultant’s ability to review certain payment applications. Consultant’s review shall not be a representation that Consultant has supervised the work, or that Consultant has reviewed how or for what purpose Contractor has used or intends to use Owner’s payments.

Attention: Joe Lowe

Subject: Structural Engineering Services for
Fallbrook Wellness Center

Dear Mr. Lowe:

In response to your request, **aark engineering inc.** (AARK) proposes to provide **Taylor Design** (Client) structural engineering services for the subject Project.

PROJECT DESCRIPTION

The subject project is understood to include structural and non-structural remodeling of several existing buildings and a building addition. Structural project elements are understood to include:

1. Building 1: structural modifications to existing building resulting from removal of existing balcony
2. Building 1: structural modifications to existing building resulting from removal of existing building end walls to accommodate new glass curtain walls, including new shear walls or frame elements and foundations; curtain wall design is excluded
3. Building 2: supports and structural upgrades as required to support new operable partition wall
4. Building addition: single-story wood-frame addition of approximately 1,000 square feet or less to be constructed adjacent to Buildings 1 and 2, including new exterior wall openings in Building 2
5. Building 3: new openings in existing non-structural exterior walls and supports and structural upgrades as required to support new operable partition wall
6. Building 4: modifications to existing roof and ceiling framing and foundations as required to accommodate removal of fireplace
7. Covered walkway connecting Buildings 1, 2 and 3
8. Site retaining walls up to 6 feet in height (wall sections only – wall profiles are excluded)
9. Exterior slab, screen walls, and seismic anchorage for on-grade emergency electrical generator

The project is understood to fall under local jurisdiction for structural plan review.

SCOPE OF SERVICES

The structural scope is understood to include the following:

- Two site visits during design to review existing conditions

- Ten coordination meetings during design (web-based)
- Structural notes, plans, and equipment support/anchorage details
- Structural calculations
- Structural specifications (on drawings)
- Response to local agency structural plan review comments
- Construction support services, including structural submittal review, response to structural RFI's, up to five field visits, and generation of as-built structural drawings per contractor markups

DELIVERABLES

Design Development:

- Design development structural drawings

Construction Documents:

- Structural drawings
- Structural calculations
- OSHPD TIO markup indicating structural items

Construction Support / Closeout:

- As-built structural drawings based on contractor markups
- OSHPD final verified report

ASSUMPTIONS AND EXCLUSIONS

The following assumptions have been made by AARK in the preparation of this proposal. Should any of these assumptions prove invalid, AARK shall be entitled to Additional Services, as defined in this proposal.

- Supports and seismic restraints for ceiling-supported mechanical, plumbing or electrical equipment and distribution system elements, including ducts, pipes and raceways, are excluded unless otherwise noted
- Supports, attachments, and braces for equipment and architectural appurtenances not explicitly outlined in the Project Elements are excluded
- Cost estimating services are excluded
- Construction support services resulting from design changes made during construction and unforeseeable circumstances are excluded

SCHEDULE OF VALUES

We propose to provide the above Scope of Services in accordance with the Schedule of Values provided below. All costs are lump sum unless otherwise indicated.

TERMS AND CONDITIONS

REFERENCE PURPOSES ONLY: THIS IS NOT A CONTRACT/ AGREEMENT AND WILL NOT BE SIGNED BY THE ARCHITECT. THIS IS THE CONSULTANT'S PROPOSED SCOPE OF WORK AND RELATED FEES. ONLY THE TERMS & CONDITIONS AND/OR PROVISIONS OF THE CLIENT'S PRIME AGREEMENT PREVAIL AND/OR AS PROVIDED FOR IN THE CONSULTANT AGREEMENT, WHICH SHALL BE ISSUED UPON RECEIPT OF CLIENT'S EXECUTED AGREEMENT.

Additional Services

Engineering services beyond the scope of this proposal, if required, will be provided on a time and material basis in accordance with the attached fee schedule, which is adjusted annually. Additional services will be subject to the Client's prior written approval.

Expiration of Proposal

This fee proposal is valid for sixteen weeks from the proposal date. If this proposal is not accepted as indicated below within sixteen weeks, the fee proposal will be considered void.

Ownership of Documents

All documents produced by AARK under this agreement shall remain the property of AARK and may not be used by the Client for any other endeavor without the prior written consent of AARK.

Payment

Invoices will be rendered monthly based upon the Schedule of Values provided above, and shall be payable no later than 30 days after the invoice date. If an invoice is not paid within 90 days of its issue, AARK may terminate this agreement.

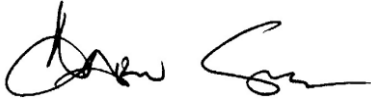

Termination of Agreement

This agreement may be terminated at any time by either party by providing a written letter of termination to the other party. Upon termination of this agreement, we will invoice for the time and material costs accumulated up to the date of termination, not to exceed the total fee proposed above. Retainers shall be credited to the final invoice. This final invoice shall be payable as indicated above.

Mechanical, Electrical, Plumbing, and Fire Protection Engineering Services

Dear Mr. Legaspi,

Thank you for the opportunity to provide this fee proposal for the subject project. This fee proposal is based on the Request for Proposal received via email on October 8, 2021.

BASIS OF PROPOSAL

PBS Engineers will provide customary basic Mechanical, Electrical, Plumbing, and Fire Protection (MEP/FP) Engineering Services as outlined in Article No. 4 of AIA Document No. C401 (2017 edition). Any services not customarily furnished in accordance with generally accepted engineering practice will be considered additional services.

Project Description: Provide Mechanical, Electrical, Plumbing, and Fire Protection Engineering Services for Fallbrook Wellness Center Modernization, located at Fallbrook, California.

ENGINEERING SCOPE OF WORK

The following is the list of tasks that we (PBS) envision to be in our scope of work:

MECHANICAL, ELECTRICAL, PLUMBING, AND FIRE PROTECTION ENGINEERING TASKS

1. Provide thorough field investigation of the four (4) existing buildings to determine existing Mechanical, Electrical, Plumbing and Fire Protection (MEP/FP) site conditions, project scope, point of connections, proposed requirements, and special considerations.
2. PBS will require access above the ceilings to identify the existing utilities.
3. Obtain all available As-Built documents from the Client.
4. Obtain all electronic backgrounds from Taylor Design.
5. Preparation of Construction Documents including Book Specifications in Word, Demolition Plans, and Construction Plans in Revit, and PDF format, as required.
6. Prepare a Basis for Design (BOD) for the project outlining the MEP/FP/IT Systems and the intended designs.
7. Note on plans for Contractor to coordinate any shutdowns with end-users.
8. PBS will coordinate with Taylor Design and other project Consultants, the work required to enable the installation of the new systems; Floor Penetrations, Ceiling Removal and Reinstallation, Ceiling Removal and Replacing, Wall Penetrations, Supplemental Structural Members for Supports.
9. Meetings to verify information with Facility Key Stakeholders, Operations, and Maintenance Staff to be coordinated through Taylor Design.
10. PBS will assemble catalog data sheets for coordination, review, and approval.
11. PBS will deliver its design and construction drawings via e-mail, using the same software as used by Taylor Design on the project.
12. Taylor Design will submit all MEP drawings to the local Authorities Having Jurisdiction (AHJ) for plan check and approval.
13. Assist with obtaining approval from the AHJ and Facility Key Stakeholders, implement all comments and provide responses.
14. Attend Bid Walk and provide electronic copies of Bid Package for distribution to Contractors.
15. During bidding, respond to Bid questions and prepare Addendum, as required.
16. During construction, attend site meetings as necessary, review shop drawings and other submittals and provide recommendations. Answer Contractor's questions on the Construction Documents and Change Order requests.
17. Provide Punch List at project completion and verify completion by Contractor.
18. Review Contractor's as-built drawings/redlines and reconcile information to prepare record drawings to be submitted to Fallbrook.
19. All coordination of the project documents through design, construction and close out shall be conducted through Taylor Design.

20. The services described in this Agreement will cover the following systems:
- a. **Mechanical Engineering**
- 1) Review existing Heating, Ventilation and Air Conditioning (HVAC) System type, size, and equipment life expectancy to validate the reuse.
 - 2) Provide new HVAC Systems and equipment, as required.
 - 3) Reconfigure existing duct work with demolition and remodel design per thermal zoning requirements.
 - 4) Provide new supply air, return air, and exhaust air distribution design and coordinate with all other disciplines, including Reflected Ceiling Plan (RCP).
 - 5) Preparation of all energy calculations and documentation per City requirements.
 - 6) Coordination with Structural and Architect for equipment locations and anchorage.
 - 7) Designs for all HVAC ductwork, grilles, registers, diffusers, and thermostats as required for the renovation spaces.
- b. **Electrical Engineering**
- 1) Upgrade existing lighting, switches, and outlets, as required for the modernization.
 - 2) Power distribution to renovated areas and associated systems.
 - 3) Lighting Photometric Analysis for outdoor spaces based on selection of fixtures by Taylor Design. PBS will support the Architect in the selection of the fixtures.
 - 4) Coordinate the design of the LED Lighting System within building spaces as per the reflected ceiling plan. Lighting fixtures will be selected in conjunction with Taylor Design's requirements, and PBS will provide power to the lighting fixtures interior and exterior.
 - 5) Upgrade the existing site lighting and provide new site lighting along the exercise walking path.
 - 6) Power for interior lighting and controls to comply with the latest Title 24 requirements.
 - 7) Interior power branch circuit distribution.
 - 8) Egress and exit lighting branch circuit design.
 - 9) Modify the existing Fire Alarm System as required for the modernization.
 - 10) Provide basic solar design in the parking area.
 - 11) Power for systems designed by Others, including Telcom Systems, Security, Audio/Video (A/V), decorative and public area lighting, signage. Location of all outlets and point utility requirements to be detailed on drawings by Others, these drawings being provided to the Engineer will allow the Engineer to transfer/incorporate these requirements into the electrical contract documents and to provide the needed electrical infrastructure.
- Electrical Utility Service Upgrade Study**
- 1) Evaluate the existing power utility service and its ability to support the program.
 - 2) Coordinate with the utility company to determine the peak demand values to understand current loads.
 - 3) Evaluate the condition of the electrical distribution equipment to ensure it can support the future plans.
 - 4) Provide a report outlining the existing conditions and the ability for the system to support the renovations, with recommendations for upgrade.
- Information Technology (IT) Engineering**
- 1) Provide layout and infrastructure distribution design associated with the IT designs.
 - 2) System riser diagrams to outline the distribution and connectivity.
 - 3) Coordination with the Facility Key Stakeholders to ensure the program meets the standards and expectations for this program.
 - 4) Provide cutsheets of all major equipment to aid in selection and specification of the IT components.
 - 5) Coordinate with the design team for all distribution infrastructures.

- c. **Plumbing**
- 1) Provide Plumbing Design for all new fixtures, appliances, and equipment.
 - 2) Connection to existing utilities including cold water, sanitary waste, and vent.
 - 3) Coordinate with Civil Engineer for all point of connections.
 - 4) Review existing hot water system and provide hot water design, as required.
 - 5) Plumbing fixtures and faucets shall be of water conservation and in compliance with Local and State Codes.
 - 6) Plumbing designs to support the HVAC System designs.
 - 7) Coordination with Structural Engineer for pipe support and anchorage.
- d. **Fire Protection**
- 1) Provide performance-based drawings and specifications.
 - 2) Coordinate with Civil Engineer for all point of connections.
 - 3) Coordinate sprinkler head locations with Reflected Ceiling Plan (RCP), lighting and mechanical diffusers.
 - 4) PBS will require access above the ceilings to identify the potential piping layout, piping supports, and seismic anchorage.
 - 5) Provide preliminary hydraulic calculations.
 - 6) Coordinate the location of the new fire riser rooms.
 - 7) Coordination with Structural Engineer for pipe support and anchorage.

FEE ARRANGEMENT

1. For Basic Mechanical, Electrical, Plumbing, and Fire Protection Engineering Services, the compensation shall be **\$149,500.00 (One Hundred Forty-Nine Thousand Five Hundred Dollars)**, including reimbursable expenses, with a breakdown of fees by phase as follows:

BREAKDOWN OF FEES BY PHASE			
Discipline	Construction Documents	Construction Administration	Total
Mechanical, Electrical, Plumbing, and Fire Protection	\$127,075.00	\$22,425.00	\$149,500.00
SD \$26,320 Only // Pending DD \$46,755 / CD \$54,000 / CA \$22,425			TOTAL FEE: \$149,500.00
(One Hundred Forty-Nine Thousand Five Hundred Dollars)			

2. The Payment and Invoice Schedule, including a breakdown by Phase and Percentage, is as follows:

PAYMENT AND INVOICE SCHEDULE	
Phase	Percentage
Schematic	10%
Design Development	15%
Construction Document 50%	25%
Construction Document 100%	28%
Authorities Having Jurisdiction (AHJ) Approval	2%
Construction Administration	17%
Project Close-Out	3%
TOTAL:	100%

3. For Additional Services, the compensation shall be negotiated with the Client prior to proceeding with the Work.
4. All Plan Check Fees will be billed at cost.
5. This fee proposal is valid for a period of ninety (90) days from the date of this proposal and will be adjusted if the total project square footage or project construction cost increases.

~~The below-listed Schedule of Charges and Terms and Conditions are a part of this Agreement.~~

INTENTIONALLY OMITTED: THIS IS NOT A CONTRACT/AGREEMENT AND WILL NOT BE SIGNED BY THE ARCHITECT. THIS IS THE CONSULTANT'S PROPOSED SCOPE OF WORK AND RELATED FEES. ONLY THE TERMS & CONDITIONS AND/OR PROVISIONS OF THE CLIENT'S PRIME AGREEMENT PREVAIL AND/OR AS PROVIDED FOR IN THE CONSULTANT AGREEMENT, WHICH SHALL BE ISSUED UPON RECEIPT OF CLIENT'S EXECUTED AGREEMENT.

ASSUMPTIONS | EXCLUSIONS

1. Equipment anchorage calculations are excluded.
2. Site investigation is limited to non-destructive verification of existing conditions. Temporary relocation of furniture, equipment, and casework to verify site conditions is not included in this scope of work or fee. The surveys performed during the Pre-Design Phase will be all based on visual observations.
3. Natural gas design is not included in the scope of work and fee.
4. Structural Engineering design is not included in the scope of work and fee.
5. Fire Protection and Fire Alarm approval and permits shall be provided by the Contractor.
6. Active data network equipment and Audio/Visual designs are not included in the scope of work and fee.
7. Telephone system equipment design is not included in the scope of work and fee.
8. Acoustic system design or acoustical requirements (i.e., acceptable mechanical noise, the required level of sound isolation, etc.) is excluded.
9. Any costs of recording for power, water, and sewer is not included in the scope of work or fee.
10. Complete coordination with Landscape Architect, Structural Engineer, and all Specialty Consultants is included. Site work and street development (electrical) infrastructure is not included in the scope of work and fee.
11. Any design changes by the Owner after plan check, will be considered Additional Services, and the fee will be based on a time and material basis.
12. Plan Check fees are not included in this fee and will be submitted for reimbursement.

Please review this information and let us know if you have any questions. Thank you very much for the opportunity to provide this fee proposal for your consideration.
