Program Name/Title

SBHC BH Expanded Services Program

Brief Program Description

The vision of the School District is to provide health services to middle school children exhibiting social and/or behavioral deficits. CHSI's SBHC onsite at Potter JHS will provide essential behavioral health services through its clinicians which will develop trust among school personnel, educators, clinicians, and students to support their vision.

Funding Amount Awarded

30000

Target Population - Age

	Percent of program participants	Estimated number of participants
Children (infants to 12)	7	2
Young Adults (13-17)	93	25
Adults (18-60)		
Seniors (60+)		
We do not collect this data (indicate with 100%)*		

Target Population not collected - Age

N/A

Target Population - Gender

	Percent of program participants
Female	85
Male	15
Non-binary	
Unknown*

Program/Services Description - Social Determinants of Health

Healthcare Access & Quality (Access to Health Care, Access to Primary Care, Health Literacy)

Program Goal & Objectives

Goal: By partnering with CHSI, the goal of the Fallbrook Union Elementary School District and Potter JHS, is to provide resources and community outreach in an expanded format on campus to raise awareness, reduce and/or eliminate stigmas, and provide transparent support for behavioral health... CHSI has demonstrated its commitment and capacity to serve the community by documenting a steady increase in utilization of services provided to underserved patients.

1. By the end of the program year, or June 30, 2024, CHSI will have expanded its SBHC services to five (5) days per week.

Q3 Update: This objective has been successfully implemented.

2. By the end of the program year, or June 30, 2024, CHSI will provide 100 visits to uninsured students from Potter JHS.

Q3 Update: CHSI updated this objective to reflect the award adjustment which covers 100 visits as opposed to 150 visits proposed in the original application. In Q3, CHSI provided 250 visits at the SBHC. Of those visits, 196 visits were provided to 27 uninsured/under-insured students who were eligible to use the available grant funds. Due to limited funds, 8 visits were covered with grant funds. CHSI will cover the remaining costs in-kind for those eligible. All grant funds have been exhausted as of quarter 3. In retrospect, grant funds covered 71 visits in Quarter 1, 21 visits in Quarter 2, and 8 visits in Quarter 3, totaling the approved budget for 100 visits.

Program Outcomes & Measurables

1. Currently, CHSI is providing behavioral health services at Potter JHS on a part-time basis at three (3) days per week, with projected expansion to full-time as demand progresses. Continued outreach and collaboration with CHSI's Community Relations team and the school district, combined with the on-site presence of behavioral health providers will increase awareness and education of the importance of mental/behavioral health support to students and their family members. CHSI's anticipated expansion to five (5) days per week will be determined by data evaluation through its practice management system (how many patients are scheduled, and the need for additional appointment slots).

Q3 Update: As stated in the previous section, this objective has been completed. Demand continues to progress at the SBHC and it continues to operate at 5 days per week. Total visits at the SBHC in quarter 3 (250) increased by approximately 73% versus quarter 2 (160). This increase reflects CHSI's presence on campus has continued to earn the trust of the students, faculty, parents, and community members, and is actively reducing stigma around behavioral health as more students seek help/return for additional services.

2. CHSI has estimated that approximately 50% of the SBHC's referrals to FFHC are patients who have health insurance coverage by plans not covered by FFHC. In order to maintain continuity of care and ensure that no patient is turned away, CHSI is proposing to cover the cost of 150 visits for students needing services, since there may be multiple visits needed for each individual.

Q3 Update: 8 visits have been covered for uninsured/under-insured students this quarter. This brings the total visits since the start of the program to 100 visits covered for uninsured or under-insured students seeking counseling/therapy at Potter SBHC. As stated previously, the number of visits covered by the grant has been updated to 100.
