Program Goal & Objectives

Ensure that seniors and disabled adults in need of caregiving, resource provision, nutrition, transportation, housing intervention, mental health support, or other related age-in-place services are supported through hands-on assistance, or through referrals to trusted, vetted resources so that they may live independently and safely for as long as possible. When necessary, act as a Case Manager to coordinate care for those with complex health or living conditions, setting goals to stabilize their situation for optimal mental, physical, and social wellbeing. Objective 1: Support 1,000 seniors and/or disabled adults with our Care Advocate services to address needs and overcome obstacles during the FRHD fiscal year. Objective 2: Visit with at least 300 senior or disabled clients at home or at healthcare facilities, assessing their unmet needs, evaluating health and home safety, and taking action steps to address those needs, during the FRHD fiscal year. Objective 3: Act as a Case Manager for 70 clients with complex health or living needs, creating a plan of action and regular visits and follow-ups during the FRHD fiscal year, with the intent to stabilize their situation with a positive outcome. Objective 4: Discuss mental health wellbeing with at least 100 individuals, referring at least 50% to mental health providers, during the FRHD fiscal year.

Program Outcomes & Measurables

In this quarter, our Senior Care Advocate team provided support to 327 unique clients by referring them to necessary resources to overcome various obstacles. This makes up 33% of our overall target for the grant year. Additionally, the Care Advocates assisted 45 clients in stabilizing their health and housing situation,

which is a part of our goal of 70 for the FRHD fiscal year. Furthermore, we discussed mental health and well-being with 13 out of the 100 individuals projected for the FRHD fiscal year and referred eight out of the 13 individuals to mental health providers.
