Foundation for Senior Care

Program Name/Title

Door through Door Hospital to Home (Without Going Back)

Brief Program Description

The Door through Door program provides critical support to hospitalized seniors, helping to ensure appropriate care and resources are available post-discharge, enabling the greatest opportunity for a full, safe recovery.

Funding Amount Awarded

11000

Target Population - Age

	Percent of program participants	Estimated number of participants
Children (infants to 12)		
Young Adults (13-17)		
Adults (18-60)	9	2
Seniors (60+)	91	20

Program/Services Description - Social Determinants of Health

Economic Stability (Employment, Food Insecurity, Housing Instability, Poverty)

Social & Community Context (Civic Participation, Discrimination, Incarceration, Social Cohesion)

Healthcare Access & Quality (Access to Health Care, Access to Primary Care, Health Literacy)

Neighborhood & Built Environment (Access to Foods that Support Healthy Eating Patterns, Crime and Violence, Environmental Conditions, Quality of Housing)

Program Goal & Objectives

The Door through Door program aims to provide timely and appropriate interventions for referred clients to improve their safety and access to quality care and to reduce the likelihood of hospital readmission. The objectives are the following: 1) Connect with at least 115 older adults who are or have been recently hospitalized to provide resources and support to improve their safety and well-being. 2) Actively provide interventions, referrals, and/or education services for at least 70% of referred clients. (Note that some referred clients refuse help or do not survive the hospital stay.) 3) Through our interventions, 90% of clients we actively engage with will not be readmitted within 30 days due to preventable conditions. 4) Successfully prevent wrongful or unsafe discharge from a healthcare facility in at least 40% of such identified cases.

Program Outcomes & Measurables

In this quarter, our advocates helped 22 clients through the door-to-door program and provided interventions, referrals, and education services to 96% of these clients. Our intervention prevented hospital readmissions within 30 days for 98% of the clients we engaged with by implementing effective measures. Furthermore, we prevented wrongful discharge from healthcare facilities for 100% of the 7 identified cases.
