Program Name/Title

Wellness, Health, Education, & Empowerment for Life (WHEEL) Program

Brief Program Description

CHSI is implementing the Wellness, Health, Education, & Empowerment for Life (WHEEL) Program which provides teens with the appropriate education and tools necessary to navigate through the social, emotional, and physical challenges they face in their everyday lives relating to health, wellness, and safety.

Funding Amount Awarded

30000

Target Population - Age

	Percent of program participants for the full grant cycle	Total number of participants
Children (infants to 12)	7	5
Young Adults (13-17)	93	68
Adults (18-60)		
Seniors (60+)		
We do not collect this data (indicate with 100%)*		

Target Population not collected - Age

NA

Target Population - Gender

	Final percent of program participants
Female	57
Male	43
Non-binary	
Unknown*	

***Target Population - Gender**

NA

Target Population - Income Level

	Percent of program participants
Extremely Low-Income Limits, ceiling of \$32,100	
Very Low (50%) Income Limits, ceiling of \$53,500	
Low (80%) Income Limits, ceiling of \$85,600	
Higher Than Listed Limits	
We do not collect this data (indicate with 100%)*	100

***Target Population - Income Level**

N/A All teens - Income level may be important for factors relating to referrals to resources in the community that address a certain need in which participants may need assistance with. However, the WHEEL Program is open to all teens from all levels of income. Therefore, CHSI does not collect and/or report on information relating to income for this program.

Program/Services Description - Social Determinants of Health

Healthcare Access & Quality (Access to Health Care, Access to Primary Care, Health Literacy)

Neighborhood & Built Environment (Access to Foods that Support Healthy Eating Patterns, Crime and Violence, Environmental Conditions, Quality of Housing)

Program Goal & Objectives

Goal: The WHEEL Program has been established to educate adolescents on various health and wellness subjects, and to create awareness of high-risk situations and empower them with the tools necessary to prevent them.

1. By the end of each workshop, 80% of teen participants will be able to recognize risk factors and behaviors that may negatively influence their health.

Q4 Update: The teens have demonstrated a genuine interest in exploring how different scenarios and behaviors can directly influence their well-being. They share real-life anecdotes from their daily lives and have grasped the significance of factors like diet, exercise, stress management, and communication in relation to their overall health. Furthermore, they have shown a strong determination to utilize this newfound knowledge to make informed decisions about their health and wellness.

1. By June 30, 2024, at least 45 teen participants will have been referred to resources in the community that are appropriate to their needs.

Q4 Update: In this reporting period, 2 students were referred to community resources.

1. By June 30, 2024, at least 67 teen participants will have completed at least one full cohort of the WHEEL program.

Q4 Update: 1 student successfully completed at least one full cohort in this reporting period. Due to staffing turnover in this reporting period, CHSI faced challenges with recruiting teens to participate in the final cohort of the WHEEL program.

Program Outcomes & Measurables

1. Program facilitators will assess the teen participants' understanding of the education provided at

the end of each workshop when the questions and answers session of the workshop is in progress.

Q4 Update: Throughout the program year, teens have exhibited their understanding of risk factors that negatively influence their health through brief presentations of different subtopics they learn about, creating educational flyers about prominent health issues to disperse to community members, and advocating for an all-Spanish Teen WHEEL cohort which was successfully implemented during the program period.

1. Teen participants will be connected and/or referred to appropriate resources relating to their needs... CHSI's aims to have an outcome of at least half, or 45, of program participants referred and/or connected to resources appropriate to their needs.

Q4 Update: The program facilitators kept a log of how many teens were referred to community resources in which it was found that a total of 32 students were referred to resources appropriate to their needs within the program year.

 CHSI will use a sign-in sheet to document how many teens participate in each workshop throughout each 4 cohort... Sign-in sheets will help program facilitators keep track of retention rate. Retention rate will be determined based on how many teens complete one full cohort from beginning to end. CHSI expects a retention rate of at least 75% of all program participants. CHSI will also keep a log of how many teen participants become Teen Ambassadors, by completing cohorts 1 &2, for the program.

Q4 Update: Out of a total of 73 students who have participated in the WHEEL cohorts throughout the program period, 57 students have completed at least one cohort, equating to approximately 78% of participants. In addition, 30 students became Teen Ambassadors throughout the program year.

Quarter 4 Impact Story

A teen who participated in the Teen Wellness Program reflects on embarking on a transformative journey of personal growth and self-discovery over 6 weeks. The program aimed to nurture holistic wellbeing among teens, providing invaluable opportunities for this teen to explore mental health resources, emotional resilience, and physical health services. This teen's reflections and insights serve as a testament to the program's impact in fostering healthier lifestyles and equipping young individuals with the tools to thrive. Let's delve into this teen's transformative experience and discover the profound effects of investing in teenage wellness.

"My experience in volunteering in the Wellness group was incredible. It taught me many things and I'm glad I was able to learn from that. It also taught me who to trust when I'm going through certain stuff and be able to get help and support. Overall, I know that in the Fallbrook Family Health Center, we can trust."

Teen Wellness Program JOIN US!
